Press Release

January 9, 2023

Thompson Falls Public Schools to Start Long-Range Planning

At the January regular meeting of the Board of Trustees for the Thompson Falls Public Schools it was decided to start the process of a new Long-Range Plan for the district. Superintendent Bud Scully explained that the District needed to develop a Long-Range Plan that the Office of Public Instruction requires and is often referred to as a Strategic Plan. The Board wants input from community members, parents, staff, and students. Scully suggested a public meeting that would allow participants to put their ideas on paper and to also allow participants see what ideas others had by moving around the room to various tables where they could add to those ideas. The meeting will be held at the High School on 601 Golf Street in the Library on January 23, 2023 at 6:00 pm. Vice-Chairman Ryan Fields said that it was important that all of the Board members be present for this process as they would be tasked with making the final decision. The Board will be looking to get ideas that can be implemented with Goals of a 1, 3, 5, 10, 15, or 20-year timeline. Scully stated that he would compile all of the ideas and put them into a survey that could be emailed to staff, students, and parents along with a link to the survey being posted on the district website so that community members can have additional input before the Board holds another meeting for discussion and possible action on the Plan.
