SCHOOL DISTRICT ORGANIZATION

School Board Elections

Elections conducted by the District are nonpartisan and are governed by applicable election laws as found in Title 13 and Title 20 of the Montana Code. The ballot at such elections may include candidates for Trustee positions, various public policy propositions, and advisor questions.

Board elections shall take place on the first (1st) Tuesday after the first (1st) Monday in May of each year. Any person who is a qualified voter of the District is legally qualified to become a Trustee. A declaration of intent to be a candidate must be submitted to the District Clerk at least forty (40) days before the regular school election day. If different terms are to be filled, the term for the position for which each candidate is filing also shall be indicated. Any person seeking to become a write-in candidate for a trustee position shall file a declaration of intent no later than 5:00 p.m. on the day before the ballot certification deadline in Section 20-20-401, MCA. If the number of candidates filing for vacant positions or filing a declaration of intent to be a write-in candidate is equal to or less than the number of positions to be elected, the Trustees may cancel the election and shall give notice no later than thirty (30) days before the election that a Trustee election will not take place. If a Trustee election is not held, the Trustees shall declare the candidates elected by acclamation and shall issue a "certificate of election" to each candidate.

A candidate intending to withdraw from the election shall send a statement of withdrawal to the Clerk of the District containing all information necessary to identify the candidate and the office for which the candidate filed. The statement of withdrawal must be acknowledged by the Clerk of the District. A candidate may not withdraw after 5:00 p.m. the day before the ballot certification deadline in Section 20-20-401, MCA.

In the event of an unforeseen emergency occurring on the date scheduled for the funding election, the District will be allowed to reschedule the election for a different day of the calendar year.

In years when the Legislature meets in regular session or in a special session that affects school funding, the Trustees may order the election on a date other than the regular school election day in order for the electors to consider a proposition requesting additional funding under § 20-9-353, MCA.

The District will provide access to polling places and accessible voting technology for individuals with disabilities. The District Clerk will be responsible for assessing polling place for accessibility and ensuring reasonable access for individuals with disabilities.

The policies are framed and are meant to be interpreted in terms of state statute, administrative rules, and all other regulatory agencies within our local, county, state, and federal levels of government. This shall include providing meeting notification to news media that have officially requested it. The agenda for the meeting shall be posted through a link on the website of the newspaper of general circulation in the District, if offered free of charge, or through a link on the District's website or posted to the District's social media site(s). A copy of the agenda will also be posted at the entrance to the District Office.

Except for an unforeseen emergency or as described below, all meetings must be held in a District building or, by unanimous consent of the Board, in a publicly accessible building located within the District. Decision making must still occur only at properly noticed meetings held within the District's boundaries.

Regular Meetings

Unless otherwise specified by the Board, all regular meetings are held on the first Monday of the month at 6 pm, in the District Conference Room. The August and September meetings are held on the second Monday. If the time or place of a Board meeting is changed, notice shall be given in the same manner as provided for special meetings. The Board may choose to not convene a meeting in the month of July if there is no pressing business to attend to at that time.

Special Meetings

Special meetings may be called by the Board Chair or by any two (2) members of the Trustees. A written notice of a special meeting, stating the purpose of the meeting, must be provided to each Trustee not less than forty-eight (48) hours prior to the time of the meeting. Committee meetings may be called by the Committee Chair, and are subject to the requirements of the Open Meetings Act, including notice and posting requirements.

Between July 1 and August 10 of each year, the Clerk shall publish one notice, in *Sanders County Ledger*, stating the date, time, and place that the Board will meet for the purpose of considering and adopting the final budget. The notice must also state that the meeting may continue from day to day until the final adoption of the budget, and that any taxpayer may appear at the meeting and be heard for or against any part of the budget.

Organizational Meeting

After the issuance of the election certificates to the newly elected trustees in May, but not later than twenty-five (25) days after the election, the Board shall convene and elect from among its members a Chair and a Vice-Chair to serve one (1) year terms. The Chair shall serve until the next organization meeting and shall preside at all the meetings of the Board. In addition, the Board shall employ and appoint a competent person as the Clerk of the District at this meeting.

Emergency Meetings

In the event of a storm, fire, explosion, community disaster, insurrection, act of God, or other unforeseen destruction or impairment of school district property that affects the health and safety of the Trustees, students, District employees, or the educational functions of the district, the Board may meet immediately and take official action without prior notification.

Executive Session of Any Meeting

The Board or any committee may hold executive sessions to consider matters of individual privacy or to discuss a strategy to be followed with respect to litigation when an open meeting would have a detrimental effect on the litigating position of the District. Items submitted by Board members and citizens may be placed on the agenda in the discretion of the Chair and Superintendent. Such suggestions must be received by the Superintendent at least five (5) days before the Board meeting, unless of immediate importance as determined by the Superintendent. Individuals who wish to be placed on the Board agenda must also notify the Superintendent, in writing, of the request. Individuals who wish to be placed on the Board agenda must also notify the Superintendent, in writing, of the request. The request must include the reason for the appearance. Citizens wishing to make brief comments about school programs or procedures or items on the agenda need not request placement on the agenda, and they may ask for recognition by the Chair at the appropriate time.

The agenda also must include a “public comment” portion to allow members of the general public to comment on any public matter under the jurisdiction of the District which is not specifically listed on the agenda, except that no member of the public will be allowed to comment on contested cases or other adjudicative proceedings. The Board Chair may place reasonable time limits on any “public comment” period to maintain and ensure effective and efficient operations of the Board. The Board shall not take any action on any matter discussed in the public comment section at that time.

With consent of a majority of members present, the order of business at any meeting may be changed. Copies of the agenda for the current Board meeting, minutes of the previous Board meeting, and relevant supplementary information will be prepared and distributed to each trustee. Sealed minutes taken during any closed session of the Board shall not be made available to the public without a court order.

The Board may direct the Clerk to make an audio recording of any meeting and may direct that such recording serve as that official record of that meeting. In that case, a written record of the meeting must also be made and must include the information specified above. In addition, a log or time stamp for each agenda item is required for the purpose of providing assistance to the public in accessing that portion of the meeting. Any audio recording may be destroyed after the minutes are approved unless the Board has directed that the audio recording serve as the official record of the meeting.

Quorum

No business shall be transacted at any meeting of the Board unless a quorum of its members is present. A majority of the full membership of the Board shall constitute a quorum, whether the individuals are present physically or electronically. Abstentions from Voting

Section 20-3-323(2), MCA, requires the minutes of each Board meeting to include the voting records of each trustee present. As a general rule trustees should vote on all issues, unless casting a vote would be a violation of law. Under Montana law, instances in which it would be unlawful or inappropriate for a trustee to cast a vote on a particular issue include but are not necessarily limited to the following:

1. When hiring the relative of a trustee;
2. When casting a vote would directly and substantially affect, to its economic benefit, a business or other undertaking in which the trustee either has a substantial financial interest or in which the trustee is engaged as counsel, consultant, representative, or agent;
3. When casting a vote would directly and substantially affect a business or other undertaking to its economic detriment, where a trustee has a substantial personal interest in a competing firm or undertaking;
4. When casting a vote would cause a trustee to have a pecuniary interest, either directly or indirectly, in a contract made by the trustee (while acting in the trustee's official capacity) or by the Board; and

Audience Participation and Public Comment

The Board recognizes the value of public comment on educational issues and the importance of involving members of the public in its meetings. The Board also recognizes the statutory and constitutional rights of the public to participate in governmental operations. To allow fair and orderly expression of public comments, the Board will permit public participation through oral or written comments during the “public comment” section of the Board agenda and prior to a final decision on a matter of significant interest to the public. The Chair will control such comment to ensure an orderly progression of the meeting.

Board meetings are held in public but are not public meetings. Members of the public shall be recognized and allowed input during the meeting, at the discretion of the Chair. Following recognition by the Chair, individuals must identify themselves and then make comments as the subject permits. The Chair may interrupt or terminate an individual’s statement when appropriate, including when statements are out of order, too lengthy, personally directed, abusive, obscene, or irrelevant. The Board as a whole shall have the final decision in determining the appropriateness of all such rulings.

Uniform Complaint Procedure

The Board establishes this Uniform Complaint Procedure as a means to address complaints arising within the District. This Uniform Complaint Procedure is intended to be used for all complaints except those involving challenges to educational material, those governed by a specified procedure in state or federal law that supersedes this grievance process, and those governed by a collective bargaining agreement.

The District requests all individuals to use this complaint procedure, when the individual believes the Board or its employees or agents have violated the individual's rights under: (1) Montana constitutional, statutory, or administrative law; (2) United States constitutional, statutory, or regulatory law; or (3) Board policy.

The District will endeavor to respond to and resolve complaints without resorting to this formal complaint procedure and, when a complaint is filed, to address the complaint promptly and equitably. The right of a person to prompt and equitable resolution of a complaint filed hereunder will not be impaired by a person's pursuit of other remedies. Use of this complaint procedure is not a prerequisite to pursuit of other remedies, and use of this complaint procedure does not extend any filing deadline related to pursuit of other remedies.

The Superintendent has the authority to contract with an investigator at any time during the complaint procedure process. Within fifteen (15) calendar days of the Superintendent's receipt of the independent investigator's report and recommendation, the Superintendent will respond to the complaint and take such administrative steps as the Superintendent deems appropriate and necessary.

Level 1: Informal

An individual with a complaint should discuss it with the appropriate teacher, counselor, or building administrator, with the objective of resolving the matter promptly and informally. In the event that resolution is not achieved, the individual may file a written complaint within thirty (30) days of completion of the informal resolution process. An exception is that a complaint of sexual harassment should be discussed directly with an administrator not involved in the alleged harassment.

Level 2: Building Administrator

When a complaint has not been or cannot be resolved at Level 1, an individual may file a formal signed and dated written complaint stating: (1) the nature of the complaint; (2) a description of the event or incident giving rise to the complaint, including any school personnel involved; and

(3) the remedy or resolution requested. This written complaint must be filed within thirty (30) calendar days of the event or incident or from the date an individual could reasonably become aware of such event or incident or completion of the informal resolution process.

When a complaint alleges violation of Board policy or procedure, the building administrator will investigate and attempt to resolve the complaint. The administrator will respond in writing to the complaint, within thirty (30) calendar days of the administrator's receipt of the complaint.

If either the complainant or the person against whom the complaint is filed is dissatisfied with the administrator's decision, either may request, in writing, that the Superintendent review the administrator's decision. (See Level 3.) This request must be submitted to the Superintendent within fifteen (15) calendar days of the administrator's decision.

When a complaint alleges sexual harassment as a violation of Title IX of the Education Amendments of 1972 (the Civil Rights Act), or a violation of Title II of the Americans with Disabilities Act of 1990, or Section 504 of the Rehabilitation Act of 1973, the building administrator will turn the complaint over to the Title IX Coordinator or a District nondiscrimination coordinator. The coordinator will follow the District's Title IX or Section 504 Grievance Process.

Level 3: Superintendent

If either the complainant or the person against whom the complaint is filed appeals the administrator's decision provided for in Level 2, the Superintendent will review the complaint and the administrator's decision. The Superintendent will respond in writing to the appeal, within thirty (30) calendar days of the Superintendent's receipt of the written appeal. In responding to the appeal, the Superintendent may: (1) meet with the parties involved in the complaint; (2) conduct a separate or supplementary investigation; (3) engage an investigator or other District employees to assist with the appeal; and/or (4) take other steps appropriate or helpful in resolving the complaint.

If either the complainant or the person against whom the complaint is filed is dissatisfied with the Superintendent's decision, either may request, in writing, that the Board consider an appeal of the Superintendent's decision. (See Level 4.) This request must be submitted in writing to the Superintendent, within fifteen (15) calendar days of the Superintendent's written response to the complaint, for transmission to the Board.

Level 4: The Board

Upon written appeal, the Board will consider the Superintendent's decision in Level 2 or 3. Upon receipt of written request for appeal, the Chair will place the appeal on the agenda of a regular or special Board meeting. The Board will report its decision on the appeal, in writing, to all parties, within thirty (30) calendar days of the Board meeting at which the Board considered the appeal. A decision of the Board is final, unless it is appealed pursuant to Montana law within the period provided by law.

Level 5: County Superintendent

When a matter falls within the jurisdiction of a County Superintendent, the decision of the Board may be appealed to the County Superintendent by filing written appeal within thirty (30) calendar days of the Board's decision, pursuant to Montana law.

An individual may obtain a written copy of this policy by requesting one through the Superintendent. This procedure is available on the District's website.

All fundamental parental rights are exclusively reserved to the parent of a child without obstruction or interference by a governmental entity in accordance with the common law, state and federal law, and Board policies.

Surveys - General

All surveys requesting personal information from students, as well as any other instrument used to collect personal information from students, must advance or relate to the District's educational objectives as identified in Board policy. This applies to all surveys, regardless of whether the student answering the questions can be identified and regardless of who created the survey.

Surveys Created by a Third Party

Before the District administers or distributes a survey created by a third party to a student, the student's parents may inspect the survey upon request and within a reasonable time of their request. This section applies to every survey that is created by a person or entity other than a District official, staff member, or student, regardless of whether the student answering the questions can be identified, and regardless of the subject matter of the questions.

Surveys Requesting Personal Information

School officials and staff members shall not request, nor disclose, the identity of any student who completes ANY survey containing one (1) or more of the following items:

7. Religious practices, affiliations, or beliefs of the student or the student's parent/guardian;
8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

The student's parents may inspect the survey within a reasonable time of the request, and/or refuse to allow their child to participate in any survey requesting personal information. The school shall not penalize any student whose parent(s)/guardian(s) exercise this option.

No student shall be required to submit to any survey requesting personal information without consent of the parent. Parents will be given notice and an opportunity to opt their child out of participation of any survey requesting personal information that is not required by the District.

Instructional Material

A student's parent may, within a reasonable time of the request, inspect any instructional material used as part of their child's educational curriculum. The term "instructional material," for purposes of this policy, means instructional content that is provided to a student, regardless of its format, printed or representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). Parent/Family Engagement Policy

The Board believes that engaging parents/families in the education process is essential to improved academic success for students. The Board recognizes that a student's education is a responsibility shared by the District, parents, families and other members of the community during the entire time a student attends school. The Board believes that the District must create an environment that is conducive to learning and that strong, comprehensive parent/family involvement is an important component. Parent/family involvement in education requires a cooperative effort with roles for the Office of Public Instruction (OPI), the District, parents/families and the community.

Parent/Family Involvement Goals and Plan

The Board recognizes the importance of eliminating barriers that impede parent/family involvement, thereby facilitating an environment that encourages collaboration with parents, families and other members of the community. Therefore, the District will develop and implement a plan to facilitate parent/family involvement that shall include the following six (6) goals:

1. Encourage families to actively participate in the life of the school and feel welcomed, valued, and connected to each other, to school staff, and to what students are learning and doing in class;
2. Encourage families and school staff to engage in regular, two-way meaningful communication about student learning;
3. Encourage families and school staff to continuously collaborate to support student learning and healthy development both at home and at school and have regular opportunities to strengthen their knowledge and skills to do so effectively;
4. Empower parents to be advocates for their own and other children, to ensure that students are treated equitably and have access to learning opportunities that will support their success;
5. Encourage families and school staff to be partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs;
6. Encourage families and school staff to collaborate with members of the community to connect students, families, and staff to expand learning opportunities, community services, and civic participation; and
7. Encourage families and school staff to collaborate with members of the community to connect students, families, and staff to post-secondary education opportunities, including workforce training, apprenticeship opportunities, career pathways, and degree programs, and encourage students to explore college and career planning tools (including Free Application for Federal Student Aid completion) and incentives provided by post-secondary institutions.

The Board of Trustees, in consultation with parents, teachers, administrators, and students has adopted this District plan for meeting these parent/family involvement goals is to:

1. Provide activities that will educate parents/families regarding the intellectual and developmental needs of their children at all age levels. This will include promoting cooperation between the District and other agencies or school/community groups (such as parent-teacher groups, Head Start, etc.) to furnish learning opportunities and disseminate information regarding parenting skills and child/adolescent development.
2. Implement strategies to involve parents/families in the educational process and laws regarding parent/family rights, including:
 - Keeping parents/families informed of opportunities for involvement and encouraging participation in various District programs.
 - Providing access to Board policies, handbooks, Board and committee agendas, District grievance procedure, and contact information for administrators and Trustees on the District website.
 - Providing access to educational resources and the course of study for parents/families to use together with their children.
 - Keeping parents/families informed of the objectives of District educational and activity programs, their child's participation and progress within these programs, and methods to opt out of educational and instruction programs consistent with parent/family rights.
 - Promoting parents/families and teacher cooperation in homework, attendance, and discipline.
 - Providing information about the nature and purpose of student clubs and groups meeting at the school and right of parents to consent to such participation or withdraw their child from a club or group.
 - Providing an explanation of rights regarding student name and pronoun use consistent with the Family Education Rights and Privacy Act.

Controversial Issues and Academic Freedom

The District will offer courses of study which will afford learning experiences appropriate to levels of student understanding. The instructional program respects the right of students to face issues, to have free access to information, to study under teachers in situations free from prejudice, and to form, hold, and express their own opinions without personal prejudice or discrimination.

Teachers will guide discussions and procedures with thoroughness and objectivity to acquaint students with the need to recognize various points of view, importance of fact, value of good judgment, and the virtue of respect for conflicting opinions.

In a study or discussion of controversial issues or materials, however, the Board directs teaching staff to take into account the following criteria:

- Subjects of a controversial nature shall be defined as a political, religious and moral;
- Both the building principal and the teacher must agree to allow a speaker or material of a controversial nature in the classroom. If the teacher and building principal are unable to agree, then they shall include the Superintendent in the decision-making process; and
- If the material or speaker requests presentation at an assembly, the principal shall make the decision and inform the community.

Religion and Religious Activities

In keeping with the United States and Montana Constitutions and judicial decisions, the District may not support any religion or endorse religious activity. At the same time, the District may not prohibit private religious expression by students.

Student Prayer and Discussion

Students may pray individually or in groups and may discuss their religious views with other students, as long as they are not disruptive or coercive. The right to engage in voluntary prayer does not include the right to have a captive audience listen or to harass other students. Students may pray silently in the classroom, except when they are expected to be involved in classroom instruction or activities.

Staff Members

Staff members may not encourage, discourage, persuade, dissuade, sponsor, participate in, or discriminate against a religious activity or an activity because of its religious content while in the course of performing official duties of that staff member's position(s) with the District.

Assemblies, Extracurricular and Athletic Events

District officials may not invite or permit members of the clergy, staff members, or outsiders to give prayers at school-sponsored assemblies and extracurricular or athletic events. District officials also may not organize or agree to student requests for prayer at assemblies and other school-sponsored events. Furthermore, prayer may not be broadcast over the school public address system, even if the prayer is nonsectarian, non-proselytizing, and initiated by students.

Student Religious Expression and Assignments

Students may express their individual religious beliefs in reports, tests, homework, and projects. Staff members should judge their work by ordinary academic standards, including substance, relevance, appearance, composition, and grammar. Student religious expression should neither be favored nor penalized. A student may read the Bible or other religious material during free reading time or when self-selected and consistent with a classroom or course requirements.

Graduation Ceremonies

In order to assure the appropriateness and dignity of the occasion, the District sponsors and pays for graduation ceremonies and retains ultimate control over their structure and content.

District officials may not invite or permit members of the clergy to give prayers at graduation. Furthermore, District officials may not organize or agree to requests for prayer by other persons at graduation, including requests from students. The District may not prefer the beliefs of some students over the beliefs of others, coerce dissenters or nonbelievers, or communicate any endorsement of religion.

Students and their families may organize baccalaureate services, at which attendance must be entirely voluntary. Organizers of baccalaureate services may rent and have access to school facilities on the same basis as other private groups and may not receive preferential treatment. The District may not be identified as sponsoring or endorsing baccalaureate services. District funds, including paid staff time, may not be used directly or indirectly to support or subsidize religion.

Religion in the Curriculum

Staff members may teach students about religion in history, art, music, literature, and other subjects in which religious influence has been and continues to be felt. However, staff members may not teach religion or advocate religious doctrine or practice. The prohibition against teaching religion extends to curricular decisions which promote religion or religious beliefs.

School programs, performances, and celebrations must serve an educational purpose. The inclusion of religious music, symbols, art, or writings is permitted, if the religious content has a historical or independent educational purpose which contributes to the objectives of the approved curriculum. School programs, performances, and celebrations cannot promote, encourage, discourage, persuade, dissuade, or discriminate against a religion or religious activity and cannot be oriented to religion or a religious holiday.

Student Religious Clubs

Students may organize clubs to discuss or promote religion, subject to the same constitutionally acceptable restrictions the District imposes on other student-organized clubs.

Distribution of Religious Literature

Students may distribute religious literature to their classmates, subject to the same constitutionally acceptable restrictions the District imposes on distribution of other non-school literature. Outsiders may not distribute religious or other literature to students on school property, consistent with and pursuant to the District policy on solicitations.

Religious Holidays

Staff members may teach objectively about religious holidays and about religious symbols, music, art, literature, and drama which accompany the holidays. They may celebrate the historical aspects of the holidays but may not observe them as religious events.

Graduation Ceremonies

Participation

A student's right to participate in a graduation ceremony at Thompson Falls High School is an honor. As such, participation in this ceremony is reserved for those members of the senior class (or junior in the case of early graduation) who have completed all state and local requirements for graduation before the date of the ceremony. Students may wear traditional American Indian tribal regalia or objects of cultural significance at a graduation ceremony. Students who complete their requirements after the date of graduation ceremony will receive their diplomas/certificates at that time.

Organization and Content of Graduation Ceremonies

The school administration may invite students to participate in the graduation ceremony according to academic class standing, class officer status or for other reasons at the discretion of school administration. Any student who is requested to participate may choose to decline the invitation.

The school administrators will review any presentations and specific content and may advise participants about appropriate language for the audience and occasion. Students selected to participate may choose to deliver an address, poem, reading, song, musical presentation or any other pronouncement of their choosing.

The printed program for a commencement exercise will include the following paragraphs:

Any presentation by participants of commencement exercises is the private expression of an individual participant and does not necessarily reflect any official position of the District, its Board, administration or employees, nor does it necessarily indicate the views of any other graduates.

The Board recognizes that at graduation time and throughout the course of the educational process, there will be instances when religious values, religious practices and religious persons will have some interaction with the public schools and students. The Board, while not endorsing any religion, recognizes the rights of individuals to have the freedom to express their individual political, social or religious views in a fashion appropriate with school policies.

High School Graduation Requirements

The Board will award a regular high school diploma to every student enrolled in the District who meets graduation requirements established by the District. The official transcript will indicate the specific courses taken and level of achievement. The Board has established graduation requirements for Thompson Falls High School students. Generally, any change in graduation requirements will become effective for the next class to enter ninth (9th) grade. Exceptions to this rule may be made when it is determined by the Board that proposed changes in graduation requirements will not have a negative effect on students already enrolled in Thompson Falls High School.

To graduate from Thompson Falls High School, a student must have satisfactorily completed the last quarter prior to graduation, and successfully complete requirements, prior to graduation as a Thompson Falls High School student. To be considered for valedictorian or salutatorian honors a student must attend Thompson Falls High School for at least three (3) complete semesters. Highly unusual exceptions may be considered, such as a student exchange program in a recognized school.

A student with a disabling condition will satisfy those competency requirements incorporated into the individualized education program (IEP). Satisfactory completion of the objectives incorporated in the IEP will serve as the basis for determining completion of a course.

Credits

Students shall be expected to earn a total of either twenty-two (22) units in order to complete graduation requirements. Specific credit requirements may be found in the student handbook.

Waiver of Requirement

Graduation requirements generally will not be waived. However, in rare and unique hardship circumstances, the Superintendent may approve minor deviations from the graduation requirements.

Alternative Programs

Credit toward graduation requirements may be granted for planned learning experiences from accredited programs, such as summer school, university courses, and correspondence courses. Credit for work experience may be offered when the work program is a part of and supervised by the school. All classes attempted at Thompson Falls High School and all acceptable transfer credits shall be recorded on the transcript. All grades earned, including failures and retakes, shall be recorded as such and utilized in the calculation of Grade Point Average and class rank. Credit shall be awarded only once regardless of repetition of the course.

Credit Transfer and Assessment for Placement

Grades 9-12

The District will not approve any requests for transfer of credit from a non-accredited, nonpublic school. Requests for grade placement from any non-accredited, nonpublic school will be subject to examination and approval before being accepted by the District. This will be done by the school counselor or principal

Grades K-8

Requests from parents of students in non-accredited, nonpublic schools for placement in the District school system will be evaluated by an assessment-for-placement team. That team will include:

1. A school principal;
2. One (1) teacher of the grade in which the student is being considered for enrollment; and if requested by the principal
3. One (1) counselor.

The assessment for placement team will administer and score the District-adopted norm referenced test and/or the end-of-year subject matter test. The assessment-for-placement team will take into account the following in its recommendation for grade placement:

1. Documentation that the non-accredited, nonpublic school has provided a comparable number of hours as the child would have attended in a public or private school;
2. That the child followed a similar curriculum as would have been provided in an accredited public or private school;
3. That the result of the test administered indicates the child has mastered most prerequisite skills; and
3. The age appropriate placement for the child.

Parents of students in home schools are encouraged to maintain a log documenting dates of instruction, content of instruction, amount of time spent on that instruction, scores on tests, and grades in all activities.

The District is not obligated to provide instructional materials for other public or private schools.

If a parent or guardian is not in agreement with the placement of the child, he/she may request a hearing before the Board.

These reports will be designed to provide information helpful to the students, teachers, counselors, and parents.

The Board directs the Superintendent to establish a system of reporting student progress and will require all staff to comply with such a system as part of their teaching responsibility. Staff and parents will be involved.

Promotion and Retention

The District believes that parents/guardians and the school staff share the responsibility for helping every student to succeed in whatever grade or class he/she is assigned. However, it is also the belief that every child must have the necessary knowledge and skills before he or she is promoted to the next grade or class. Without this minimum level of performance, it is the responsibility of the parents and the school to work together to help the child and/or provide additional support until he/she has reached the minimum level. Administrative procedures have been developed for a child who demonstrates an inability to meet the expected minimum academic performance standards and can be found in the current student and staff handbooks.

Any student who fails to demonstrate proficiency as determined by the school team may be retained in the current grade level. The final decision will be made by the Superintendent.

Proficiency

In order to increase the flexibility of the District's resources, the Board authorizes the inclusion in the District's Average Number Belonging counts of students who may be enrolled in a program providing fewer than the required aggregate hours of pupil instruction required under Montana law if the student has demonstrated proficiency in the content ordinarily covered by the instruction.

For purposes of this policy and the District's ability to seek additional funding under Montana law based upon student's demonstrating proficiency, "proficiency" is defined as mastering content through application in a performance assessment for a course that is equivalent to a "B" or greater than or equal to 80%. A student's time in a school classroom shall not be considered for determining proficiency. The determination of proficiency shall be made concurrent with the deadline for submission of grades for any course.

The Board of Trustees waives the minimum number of instructional hours for students who demonstrate proficiency in a course area using district assessments that include, but are not limited to, the course or class teacher's determination of proficiency as defined in this policy. This determination shall be based on a review of the student's completed coursework, participation in course delivery, and other methods applicable to the specific course or class. The Board of Trustees authorizes the use of the proficiency determination process for students who have selected this method of delivery, students for whom the District is unable to document satisfaction of the required minimum aggregate number of hours through remote, offsite, or onsite methods outlined in this policy, or other students whom District personnel determine satisfy the definition of proficient or meeting proficiency.

Limited English Proficiency Program

In accordance with the Board's philosophy to provide a quality educational program to all students, the District shall provide an appropriate planned instructional program for identified students whose dominant language is not English. The purpose of the program is to increase the English proficiency of eligible students, so they can attain academic success. Students who have limited English proficiency (LEP) will be identified, assessed, and provided appropriate services.

The Board shall adopt a program of educational services for each student whose dominant language is not English. The program shall include bilingual/bicultural or English as a second language instruction.

The Superintendent or his/her designee shall implement and supervise an LEP program which ensures appropriate LEP instruction and complies with applicable laws and regulations.

The Superintendent or his/her designee, in conjunction with appropriate stakeholders, shall develop and disseminate written procedures regarding the LEP program, including:

1. Program goals.
2. Student enrollment procedures.
3. Assessment procedures for program entrance, measurement of progress, and program exit.
4. Classroom accommodations.
5. Grading policies.
6. List of resources, including support agencies and interpreters.

The District shall establish procedures for identifying students whose language is not English. For students whose dominant language is not English, assessment of the student's English proficiency level must be completed to determine the need for English as a Second Language instruction.

Students whose dominant language is not English should be enrolled in the District, upon proof of residency and other legal requirements. Students shall have access to and be encouraged to participate in all academic and extracurricular activities of the District.

Students participating in LEP programs shall be required, with accommodations, to meet established academic standards and graduation requirements adopted by the Board.

The LEP program shall be designed to provide instruction which meets each student's individual needs based on the assessment of English proficiency in listening, speaking, reading, and writing. Adequate content-area support shall be provided while the student is learning English, to assure achievement of academic standards.

The LEP program shall be evaluated for effectiveness as required, based on the attainment of English proficiency, and shall be revised when necessary.

At the beginning of each school year, the District shall notify parents of students qualifying for LEP programs about the instructional program and parental options, as required by law. Parents will be regularly apprised of their student's progress. Whenever possible, communications with parents shall be in the language understood by the parents.

Wellness

The District is committed to teaching, encouraging, and supporting healthy eating by students. The District shall provide nutrition education and engage in nutrition promotion that is offered at each grade level as part of a sequential, comprehensive, standards-based program designed to provide students with the knowledge and skills necessary to promote and protect their health.

Food Marketing in Schools

School-based marketing will be consistent with nutrition education and health promotions. As such, schools will limit food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for food and beverages sold individually.

Nutrition Standards for Foods Available to Students

Meals served through the National School Lunch and Breakfast Programs will meet, at a minimum, nutrition requirements established by local, state, and federal statutes and regulations which includes but is not limited to the nutritional content standards as set by the Healthy Kids Act. In addition, the District will share information about the nutritious meals with parents and students. Such information is made available on menus, the school website, and on cafeteria menu.

Snacks

Snacks served during the school day or in after-school care or enrichment programs will provide a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage.

Free and Reduced-priced Meals

The District will make every effort to eliminate any social stigma attached to the overt identification of student who are eligible for free and reduced-price school meals. Toward this end, schools will utilize electronic identification and payment system and promote the availability of school meals to all students.

Qualifications of School Food Service Staff

Qualified nutrition professionals will administer the school meal programs. The District will provide continuing professional development for all nutrition professionals in schools. Staff development programs should include appropriate certification and/or training programs for child nutrition directors, school nutrition managers, and cafeteria workers, according to their levels of responsibility.

Integrating Physical Activity into the Classroom Setting

The District recognizes that students need opportunities for physical activity beyond physical education class. Toward that end, classroom health education will complement physical education by reinforcing the knowledge and self-management skills needed to maintain a physically active lifestyle and to reduce time spent on sedentary activities, such as watching television.

Student Health

The District highly values the health and well-being of every student. The District will take appropriate measures to address student health issues that arise in the school setting. The Superintendent shall develop procedures for addressing student health issues that may arise.

Staff Wellness

The District highly values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. The District will establish and maintain a staff wellness committee composed of at least one staff member, school nurse, nutrition specialist or other health professional, athletic director union representative, and employee benefits specialist. The committee will develop, promote, and oversee a multifaceted plan to promote staff health and wellness. The plan may include an incentive for wellness by giving employees the opportunity to leave for physical activity when the student school day ends if no other obligations interfere. The plan should be based on input solicited from school staff and should outline ways to encourage healthy eating, physical activity, and other elements of a healthy lifestyle among school staff. The staff wellness committee should distribute its plan to the staff.

Daily Recess

All elementary students will have daily, supervised recess, preferably outdoors, during which schools should encourage moderate to vigorous physical activity verbally and through the provision of space and equipment.

Physical Activity Opportunities Before and After School

The District will offer extracurricular physical activity programs, such as physical activity clubs or intramural programs.

Development, Review, and Implementation of the Policy

The District will involve the staff, and the public, including but not limited to parents, students, school food service staff, physical education teachers, school health professionals, trustees,

administrators, and members of the general public in the development, implementation, review, and modification of this policy. The Superintendent or designee is responsible for ensuring compliance with this policy and may develop procedures and regulations to support the implementation of this policy.

The District will assess the implementation of this policy and inform and update the public every three years, at a minimum, regarding compliance with the policy, how it compares to model wellness policies, and progress in attaining the goals of the wellness policy.

Age

No pupil may be enrolled in the kindergarten or first grade whose 5th birthday does not occur on or before September 10 of the school year in which the child registers to enter school. No pupil may be enrolled in the District if that pupil has reached his or her 19th birthday on or before September 10 of the school year in which the child registers to enter school. A student may request a waiver of the age limitation where there are exceptional circumstances, which must be approved by the Board. The trustees may also admit an individual who has graduated from high school but is not yet 19 years of age even though no special circumstances exist for waiver of the age provision or a student who is not yet 19 years of age and experienced educational disruption and was awarded a diploma as a result and seeks access to reasonable curriculum designed to advance postsecondary success.

Except when enrollment is otherwise required by law, the Board of Trustees has the discretion to give special permission to enroll a student who has not reached the age of five (5) or has reached the age of nineteen (19) on or before September 10 of the school year where there are exceptional circumstances.

Exceptional circumstances means:

- The student is being admitted into a preschool program established by trustees pursuant to Montana law.
- The student is determined by the trustees to be ready for kindergarten and the child's parents have requested early entry into the District's 1-year kindergarten program;
- The student is 19 years of age or older and in the trustee's determination would benefit from educational programs offered by a school of the District.

The trustees shall assign and admit a student who is enrolled in a nonpublic or home school and who meets the age and residency requirements on a part-time basis at the request of the student's parents or guardian.

Entrance – Identity and Immunization

Students enrolling in the District for the first time must present a birth certificate or other reliable proof of identity and age within 40 days, as well as proof of residence, and immunization from disease as required by Montana. Students who are homeless, in foster care, or are the child of a military family are entitled to immediate enrollment regardless of presentation of the required documentation. If the parent of the student does not provide proof of identification within 40 days, the District shall notify the missing children information program and a local law enforcement authority of the fact that no proof of identity has been presented for the child. Nonresident students shall be admitted when required by law or as permitted by District policy. A student who transfers from one school district to another may photocopy immunization

records in the possession of the school of origin. The District shall accept the photocopy as evidence of immunization. Within 30 days after a transferring pupil ceases attendance at the school of origin, the District should have the original immunization records.

When a parent/guardian signs and files with the District, prior to the commencement of attendance each school year, a notarized affidavit on a form prescribed by the State of Montana stating that immunization is contrary to the religious tenets and practices of the parent, immunization of the student seeking to attend in the District will not be required prior to attendance. The statement must be maintained as part of the student's immunization records. The District will also accept medical exemptions as required by law.

Placement

The goal of the District shall be to place students at levels and in settings that will enhance the probability of student success. Developmental testing, together with other relevant criteria, including but not limited to, health, maturity, emotional stability, and developmental disabilities, may be considered in the placement of all students. Final disposition of all placement decisions rests with the Principal, subject to review by the Superintendent.

Children of Relocated Military Families

The Board shall assign and admit a child whose parent or guardian is being relocated to Montana under military orders to a school in the district and allow the child to preliminarily enroll in classes and apply for programs offered by the District prior to arrival and establishing residency. The student may attend classes during preliminary enrollment and may receive offsite instruction if not present in the District.

Transfer Students

Resident students seeking to transfer to a District school will be admitted and placed pursuant to the terms of this policy. The District will request the student's records from the prior school district prior to making any final decision on placement.

Elementary students shall be placed at their current grade level on a probationary basis for a period of two weeks. Should any doubt exist with the teacher and/or Principal as to grade and level placement of the student, the student shall be subject to an educational assessment to determine appropriate grade and level placement.

High school students shall be placed according to the number of credits earned in their previous accredited school districts, subject to Montana Accreditation Rules and Standards and local alternate procedures for earning credit.

Compulsory Attendance

To reach the goal of maximum educational benefits for every child requires a regular continuity of instruction, classroom participation, learning experiences, and study. Regular interaction of students with one another in classrooms and their participation in instructional activities under the tutelage of competent teachers are vital to the entire process of education. This established principle of education underlies and gives purpose to the requirement of compulsory schooling in every state in the nation. A student's regular attendance also reflects dependability and is a significant component of a student's permanent record.

Parents or legal guardians or legal custodians are responsible for seeing that their children who are age seven (7) or older before the first day of school attend school until the later of the following dates:

1. Child's sixteenth (16th) birthday; or
2. Date the child completes the eighth (8th) grade.

The provisions above do not apply in the following cases:

- (a) The child has been excused under one of the conditions specified in 20-5-102.
- (b) The child is absent because of illness, bereavement, or other reason prescribed by the policies of the trustees.
- (c) The child has been suspended or expelled under the provisions of 20-5-202.
- (d) The child is excused pursuant to 20-7-120.
- (e) The child is excused pursuant to 40-6-701(1) or Policy 2158.

Compulsory attendance stated above will not apply when children:

1. Are provided with supervised correspondence or home study; or
2. Are excused because of a determination by a district judge that attendance is not in the best interests of the child; or
3. Are enrolled in a non-public or home school; or
4. Are enrolled in a school in another district or state; or
5. Are excused by the Board on a determination that attendance after age of sixteen (16) is not in the best interests of the child and the school.

Regular interaction of students with one another in the classroom and their participation in instructional activities under the tutelage of competent teachers are vital to the entire process of education. Education of Homeless Children

Every child of a homeless individual and every homeless child are entitled to equal access to the same free, appropriate public education as provided to other students. In addition, homeless students will have access to services comparable to those offered to other students. A “homeless individual” is defined as provided in the McKinney Homeless Assistance Act. The District must assign and admit a child who is homeless to a District school regardless of residence and irrespective of whether the homeless child is able to produce records normally required for enrollment. The District cannot require an out-of-District attendance agreement and tuition for a homeless child.

The Superintendent/designee will review and revise as necessary rules or procedures that may be barriers to enrollment of homeless children and youths. In reviewing and revising such procedures, the Superintendent will consider issues of transportation, immunization, residence, birth certificates, school records and other documentation.

The Superintendent/designee will give special attention to ensuring the enrollment and attendance of homeless children and youths not currently attending school. The Superintendent will appoint a liaison for homeless children.

Anyone having a concern or complaint regarding placement or education of a homeless child will first present it orally and informally to the District homeless liaison. Thereafter, a written complaint must be filed in accordance with the District Uniform Complaint Protocol.

Discretionary Nonresident Student Attendance Policy

The Board has determined that the District will permit discretionary nonresident students to attend school in the District, subject to annual approval. The District will screen all nonresident students and consider only those who meet the criteria set forth in this policy. The Superintendent will recommend to the Board any nonresident student admission in accordance with this policy, with the Board making the final decision on admission. Foreign exchange students shall be admitted pursuant to the terms of this policy and according to current federal law regulating foreign exchange programs.

The District will consider the following criteria for discretionary admission of nonresident students: academic record, disciplinary record, and the current student level in the class in which the student would be admitted. All resident students who become nonresident students due to a move by the students' parents from the District may continue attendance for the remainder of the school year, barring registration in another school district. At the completion of the current school year, the student must apply for admission as a nonresident student if the student wishes to remain in the District.

A parent or guardian of a nonresident student currently attending school shall submit an application for enrollment in the succeeding school year no later than May 15th. A parent or guardian of a nonresident student seeking to enroll for the first time shall submit an application by September 10th for enrollment in first semester and by February 1st for enrollment for second semester.

Bullying, Harassment, Intimidation, and Hazing

The Board will strive to provide a positive and productive learning and working environment. Bullying, harassment, intimidation or hazing, by students, staff or third parties is strictly prohibited and shall not be tolerated.

Bullying is any harassment, intimidation, hazing or threatening, insulting or demeaning gesture or physical contact, including any intentional written, verbal or electronic communication or threat directed against a student that is persistent, severe or repeated and that:

- Causes a student physical harm, damages a student's property or places a student in reasonable fear of harm to the student or the student's property;
- Creates a hostile environment by interfering with or denying a student's access to an educational opportunity or benefit; or
- Substantially and materially disrupts the orderly operation of a school.

Bullying also includes acts of hazing associated with athletics or school-sponsored organizations or groups. Hazing includes, but is not limited to, any act that recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation or as a condition or precondition of attaining membership in or affiliation with any District-sponsored activity or grade-level attainment.

Harassment, intimidation and bullying can take many forms - verbal, written, electronic, visual, physical and psychological - and is often, but not always, associated with race, ethnicity, religion, gender, sexual orientation, socioeconomic status or physical differences.

No person, including a district employee or agent, or student, shall bully, harass, haze or intimidate another based on the provisions of applicable local, state and federal laws and regulations that prohibit discrimination or any other reason. It is the policy of the board to comply with all nondiscrimination laws.

3. Taking supportive or remedial measures to ensure continued access to the District's programs or activities while the grievance process is pending; and
4. Taking disciplinary action as appropriate and any other actions appropriate to address the harassment, intimidation, and bullying.

In the event that a staff member or administrator knows or reasonably believes that the alleged behavior constitutes criminal activity or child abuse or neglect, the staff member or administrator shall report such activity to law enforcement and/or the Department of Public Health and Human Services. Nothing herein prohibits other individuals from reporting complaints to law enforcement. If it is determined that the alleged harassment, intimidation, or bullying did not occur at school or school-related activity or does not materially or substantially disrupt the orderly operation of the District, an administrator shall refer the matter, as appropriate, to other persons or entities with appropriate jurisdiction, including but not limited to law enforcement or the Department of Public Health and Human Services.

Searches and Seizure

The District has a responsibility for the health and safety of its students during the school day, at all extra-curricular activities and events, and all activities conducted on school premises. Use of and / or possession of drugs, alcohol, tobacco and tobacco innovations, controlled substances, medications (including over-the-counter medications without permission), and any other illegal drug, and/or drug paraphernalia on school property or at a school sponsored event pose a serious risk to health and safety to students, employees and visitors. Possession and use of weapons on school grounds poses an additional risk to the health and safety of students, employees and visitors.

To protect students, employees, and visitors from these risks, it is necessary to conduct searches of persons and property under certain, limited circumstances. Such searches are necessary to: deter the presence and possession of prohibited substances and items; deter drug and alcohol abuse among the student population; to educate students as to the serious physical, mental and emotional harm caused by drug and alcohol abuse; to prevent injury, illness and harm as result of drug, alcohol abuse and/or weapons; to help identify student drug use and assist parents in pursuing evaluation and appropriate counseling; and to maintain a safe environment free of weapons, alcohol and drug use.

Searches may be carried out to recover stolen property, to detect illegal substances or weapons, or to mitigate or eliminate risks to and disruption of a safe and healthy educational environment. In keeping with these goals, the Board authorizes school authorities to conduct reasonable searches of school property and equipment, as well as of students and their personal effects, to maintain health, safety, and security in the schools.

The search of a student, by authorized school authorities, is reasonable if it is both: (1) justified at its inception, and (2) reasonably related in scope to the circumstances which justified the interference in the first place.

School authorities are authorized to utilize any reasonable means of conducting searches, including but not limited to the following:

1. A “pat down” of the exterior of the student’s clothing;
2. A search of the student’s clothing, including pockets;
3. A search of any container or object used by, belonging to, or otherwise in the possession or control of a student; and/or
4. Devices or tools such as breath-test instruments, saliva test strips, etc.

The “pat down” or “search” of a student, if conducted, will be conducted by a school official or employee of the same gender as the student being searched.

The types of property that may be searched by school officials include but are not limited to lockers, desks, purses, backpacks, vehicles parked on school property, cellular phones or other electronic communication devices.

Students and Their Personal Effects

School authorities may search a student, the student's property, or District property under the student's control, when there is reasonable suspicion that the search will produce evidence the student has violated or is violating either the law, Board policy, administrative regulation or the District's student conduct rules. Reasonable suspicion shall be based on the specific and objective facts that the search will produce evidence related to the alleged violation.

Immediately following a search, a written report shall be made by the school authority who conducted the search. The report shall be submitted to the Principal and forwarded to the Superintendent. The parent of the student shall be notified of the search as soon as possible.

Vehicles Parked on School Property

Parking on District property is a privilege for all students. Students may not use, transport, carry, or possess alcohol, illegal drugs or any weapons in their vehicles on school property. While on school property, vehicles may be inspected at any time when staff has reasonable suspicion to believe the vehicle contains, illegal drugs, drug paraphernalia, or weapons. District staff may inspect vehicles parked on school property at any time by staff for the presence of alcohol, illegal drugs, drug paraphernalia, or weapons. District staff may search a vehicle parked on school property only with the consent of the student or parent when the staff member has reasonable suspicion to believe the vehicle contains alcohol, illegal drugs, drug paraphernalia, or weapons. If the student or parent refuses consent to the search, the student will lose the privilege of parking on school property.

In any case of reasonable suspicion or where the student or parent will not consent to a search of the vehicle parked on school property, the District is authorized to contact law enforcement to conduct a search of the interior of the student's vehicle. Notice provisions for students will be contained in the student handbook annually and students shall annually consent to these procedures.

In addition, by exercising the privilege of parking in the school parking lots, the student acknowledges that the student does not have any expectation of privacy in the odors emanating from the student's vehicle which may alert a human or a canine to the presence of alcohol, illegal drugs, drug paraphernalia or weapons.

School Property

School property, including, but not limited to, desks and lockers, is owned and controlled by the District and may be searched by school authorities at any time. School authorities are authorized to conduct area-wide, general administrative inspections of school property without notice to or consent of the student and without reasonable suspicion. Contractors using trained dogs may be employed by the district to assist in this process.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities

Video Surveillance

The Board recognizes the need to provide a safe learning environment for students and staff and to protect District property and equipment. Therefore, video surveillance cameras may be used as a security measure on any District property.

Video cameras will also be used to ensure that students' behavior on school property is consistent with the established safety and conduct rules. If unacceptable behavior is recorded, timely and appropriate corrective action will occur. The Superintendent is responsible for the implementation of safety and security measures at each building and the proper use of video surveillance monitoring systems. No staff member may use video surveillance in a classroom without permission of the parent.

Signs shall be posted at various locations to inform students, staff and the public that video surveillance cameras are in use. The video surveillance will not include audio recordings unless specific notice is given as required by law.

Suspension and Expulsion

Suspension

Before suspension, the student shall be provided oral or written notice of the charges. If the student denies the charges, the student shall be given an explanation of the evidence and an opportunity to present his or her version. Prior notice and hearing as stated above is not required and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the necessary notice and hearing shall follow as soon as practicable.

Any suspension shall be reported as soon as possible to the student's parents. A written notice of the suspension shall contain a statement of the reasons for the suspension and a notice to the parents of their right to review the suspension. Upon request of the parents, the Superintendent shall convene a meeting to review the suspension. At the meeting, the student's parents may appear and discuss the suspension with the Superintendent. The Superintendent shall decide whether the suspension is appropriate. The decision of the Superintendent is final and may not be appealed to the Board.

The term of a suspension may vary depending upon the circumstances. A student may be suspended for an initial term not to exceed ten (10) school days. Upon a finding by a school administrator that the immediate return to school by a pupil would be detrimental to the health, welfare, or safety of others or would be disruptive of the educational process, a pupil may be suspended for one additional period not to exceed (ten) 10 school days if the pupil is granted an informal hearing with the school administrator prior to the additional suspension and if the decision to impose the additional suspension does not violate the Individuals With Disabilities Education Act.

Students may make up work while out on suspension. Students are encouraged to keep up on the assignments for each class. Credit will be earned for work given to the class during the term of the suspension.

Expulsion

Expulsion is any removal of a student for more than twenty (20) school days without the provision of educational services. Only the Board may expel a student from school. After the administration has investigated the alleged misconduct and made the decision to recommend an expulsion of the student to the Board, the administration shall send notice to the student and the parent of the following:

- The intent to recommend an expulsion;
- The specific charges against the student;
- What rule or regulation was broken;

- The nature of the evidence supporting the charges;
- The date, time and place where the hearing will be held;
- A copy of the procedure that will be followed by the Board; and
- A reminder of the rights the student and parents have, including the right to counsel, the right to cross examine witnesses, and the right to present witnesses.

The hearing may be rescheduled by the parent by submitting a request showing good cause to the Superintendent at least 3 school days prior to the scheduled date of the hearing. The Superintendent shall determine if the request shows good cause.

Students with rights under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act may be expelled under certain circumstances, and the District must follow all procedural requirements of those Acts, including holding a manifestation determination meeting, prior to moving forward with an expulsion.

Student Discipline

The Board grants authority to a teacher or principal to hold a student to strict accountability for disorderly conduct in school, on the way to or from school, or during intermission or recess.

Disciplinary action may be taken against any student guilty of gross disobedience or misconduct, including but not limited to instances set forth below:

1. Using, possessing, distributing, purchasing or selling tobacco products, vapor products, alternative nicotine products, or marijuana products (tobacco includes but is not limited to cigarettes, e-cigarettes, cigars, snuff, smoking tobacco, smokeless tobacco or any other tobacco or nicotine innovation) (marijuana products include but are not limited to edible products, ointments, tinctures, marijuana derivatives, marijuana concentrates, and marijuana intended for use by smoking or vaping);
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages, including powdered alcohol. Students who may be under the influence of alcohol will not be permitted to attend school functions and will be treated as though they had alcohol in their possession.
3. Using, possessing, distributing, purchasing or selling illegal drugs or controlled substances (includes medical marijuana), look-alike drugs, drug paraphernalia and any such substances that contain chemicals which produce the same effect of illegal substances. Students who may be under the influence of such substances will not be permitted to attend school functions and will be treated as though they had drugs in their possession;
4. Using, possessing, controlling, or transferring a weapon in violation of the "Possession of a Weapon in a School Building" section of this policy.
5. Using, possessing, controlling, or transferring any object that reasonably could be considered or used as a weapon.
6. Disobeying directives from staff members or school officials or disobeying rules and regulations governing student conduct.
7. Using violence, force, noise, coercion, threats, intimidation, fear, or other comparable conduct toward anyone or urging other students to engage in such conduct, including gang or gang activity, except when physical force is determined to be reasonable and necessary and used as self-defense or the defense of another person after an investigation into such conduct.
8. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's property.
9. Engaging in any activity that constitutes an interference with school purposes or an educational function or any other disruptive activity.
10. Unexcused absenteeism. Truancy statutes and Board policy will be utilized for chronic and habitual truants.

11. Hazing or bullying.
12. Forging any signature or making any false entry or attempting to authorize any document used or intended to be used in connection with the operation of a school.
13. Gambling for money.

These grounds stated above for disciplinary action apply whenever a student's conduct is reasonably related to school or school activities, including but not limited to the circumstances set forth below:

- On, or within sight of, school grounds before, during, or after school hours or at any other time when school is being used by a school group.
- Off school grounds at a school-sponsored activity or event or any activity or event that bears a reasonable relationship to school.
- Travel to and from school or a school activity, function, or event.
- Anywhere conduct may reasonably be considered to be a threat or an attempted intimidation of a staff member or an interference with school purposes or an educational function.

Disciplinary Measures

Disciplinary measures include but are not limited to:

- Expulsion
- Suspension
- Detention, including Saturday school
- Loss of student privileges
- Loss of bus privileges
- Notification to juvenile authorities and/or police
- Restitution for damages to school property

No District employee or person engaged by the District may inflict or cause to be inflicted corporal punishment on a student. Corporal punishment does not include reasonable force. District personnel are permitted to use as needed to maintain safety for other students, school personnel, or other persons or for the purpose of self-defense.

Gun-Free Schools

The Board will expel any student who uses, possesses, controls or transfers a firearm for a definite period of time of at least one (1) calendar year. The Board authorizes the Superintendent, upon written notification to the Board Chair, to modify the discipline on a case-by-case basis, including eliminating the requirement for expulsion. The administrator may immediately suspend a student if, prior to a hearing, there is cause to believe the student brought a firearm to school or possessed a firearm at school. The student may not be expelled unless the trustees find that the student knowingly brought a firearm to school or possessed a firearm at school. A building administrator will notify the criminal justice or juvenile delinquency system of any student who brings a firearm to school.

Possession of a Weapon in a School Building

The District will refer to law enforcement for immediate prosecution any person who possesses, carries or stores a weapon in a school building, except as provided below, and the District may take disciplinary action as well in the case of a student. In addition, the District will refer for possible prosecution a parent or guardian of any minor violating this policy on grounds of allowing a minor to possess, carry or store a weapon in a school building.

For the purposes of this section only, “school building” means all buildings owned or leased by a local school district that are used for instruction or for student activities; “weapon” means any type of firearm, a knife with a blade 4 or more inches in length, a sword, a straight razor, a throwing star, nun-chucks, brass or metal knuckles, or any other article or instrument possessed with the purpose to commit a criminal offense.

The Board may grant persons and entities advance permission to possess, carry, or store a weapon in a school building. All persons who wish to possess, carry, or store a weapon in a school building must request permission of the Board at a regular meeting. The Board has sole discretion in deciding whether to allow a person to possess, carry or store a weapon in a school building.

This policy does not apply to law enforcement officers acting in their official capacity.

Student Health/Physical Screenings/Examinations

The Board may arrange each year for health services to be provided to all students. Such services may include but not be limited to:

1. Development of procedures at each building for isolation and temporary care of students who become ill during the school day;
2. Consulting services of a qualified specialist for staff, students, and parents;
3. Vision and hearing screening;
4. Scoliosis screening;
5. Immunization as provided by the Department of Public Health and Human Services.

Parents will receive written notice of any screening result which indicates a condition that might interfere or tend to interfere with a student's progress.

The District will not conduct physical examinations of a student without parental consent to do so or by court order, unless the health or safety of the student or others is in question. Further, parents will be notified of the specific or approximate dates during the school year when screening administered by the District is conducted which is not necessary to protect the immediate health and safety of the student or other students.

Parents or eligible students will be given the opportunity to opt out of the above-described screening.

Students who wish to participate in certain extracurricular activities may be required to submit to a physical examination to verify their ability to participate in the activity.

All parents will be notified of requirements of the District's policy on physical examinations and screening of students, at least annually at the beginning of the school year and within a reasonable period of time after any substantive change in the policy.

Management of Sports Related Concussions

The District recognizes that concussions and head injuries are commonly reported injuries in children and adolescents who participate in sports and other recreational activities. The Board acknowledges the risk of catastrophic injuries or death is significant when a concussion or head injury is not properly evaluated and managed. Therefore, all competitive youth athletic activities in the District will be identified by the administration.

Consistent with guidelines provided by the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention, the National Federation of High School (NFHS) and the Montana High School Association (MHSA), the District will utilize procedures developed by the MHSA and other pertinent information to inform and educate coaches, athletic trainers, officials, youth athletes, and their parents and/or guardians of the nature and risk of concussions or head injuries, including the dangers associated with continuing to play after a concussion or head injury.

Annually, the District will distribute a head injury and concussion information and sign-off sheet to all parents and guardians of student-athletes in competitive sport activities prior to the student-athlete's initial practice or competition.

All coaches, athletic trainers, officials, including volunteers participating in organized youth athletic activities, shall complete the training program at least once each school year as required in the District procedure. Additionally, all coaches, athletic trainers, officials, including volunteers participating in organized youth athletic activities will comply with all procedures for the management of head injuries and concussions.

Administering Medicines to Students

“Medication” means prescribed drugs and medical devices that are controlled by the U.S. Food and Drug Administration and are ordered by a healthcare provider. It includes over-the-counter medications prescribed through a standing order by the school physician or prescribed by the student’s healthcare provider.

A building principal or other administrator may authorize, in writing, any school employee:

To assist in self-administration of any drug that may lawfully be sold over the counter without a prescription to a student in compliance with the written instructions and with the written consent of a student’s parent or guardian; and

To assist in self-administration of a prescription drug to a student in compliance with written instructions of a medical practitioner and with the written consent of a student’s parent or guardian.

Except in an emergency situation, only a qualified healthcare professional may administer a drug or a prescription drug to a student under this policy. Diagnosis and treatment of illness and the prescribing of drugs are never the responsibility of a school employee and should not be practiced by any school personnel.

Administering Medication

The Board will permit administration of medication to students in schools in its jurisdiction. A school nurse (who has successfully completed specific training in administration of medication), pursuant to written authorization of a physician or dentist and that of a parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian, may administer medication to any student in the school or may delegate this task pursuant to Montana law.

Emergency Administration of Medication

In case of an anaphylactic reaction or risk of such reaction, a school nurse or delegate may administer emergency oral or injectable medication to any student in need thereof on school grounds, in a school building, or at a school function, according to a standing order of a chief medical advisor or a student’s private physician.

In the absence of a school nurse, an administrator or designated staff member exempt from the nurse license requirement under § 37-8-103(1)(c), MCA, who has completed training in administration of medication, may give emergency medication to students orally or by injection.

The Board requires that there must be on record a medically diagnosed allergic condition that

would require prompt treatment to protect a student from serious harm or death.

A building administrator or school nurse will enter any medication to be administered in an emergency on an individual student medication record and will file it in a student's cumulative health folder.

Self-Administration of Medication

The District will permit students who are able to self-administer specific medication to do so provided that:

- A physician or dentist provides a written order for self-administration of said medication;
- Written authorization for self-administration of medication from a student's parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian is on file; and
- A principal and appropriate teachers are informed that a student is self-administering prescribed medication.

A building principal or school administrator may authorize, in writing, any employee to assist with self-administration of medications, provided that only the following may be employed:

- Making oral suggestions, prompting, reminding, gesturing, or providing a written guide for self-administering medications;
- Handing to a student a prefilled, labeled medication holder or a labeled unit dose container, syringe, or original marked and labeled container from a pharmacy;
- Opening the lid of a container for a student;
- Guiding the hand of a student to self-administer a medication;
- Holding and assisting a student in drinking fluid to assist in the swallowing of oral medications; and
- Assisting with removal of a medication from a container for a student with a physical disability that prevents independence in the act.

Self-Administration or Possession of Asthma, Severe Allergy, or Anaphylaxis Medication

Students with allergies or asthma may be authorized by the building principal or Superintendent, in consultation with medical personnel, to possess and self-administer emergency medication during the school day, during field trips, school-sponsored events, or while on a school bus. The student shall be authorized to possess and self-administer medication if the following conditions have been met:

- A written and signed authorization from the parents, an individual who has executed a caretaker relative educational authorization affidavit, or guardians for self-administration of medication, acknowledging that the District or its employees are not liable for injury

that results from the student self-administering the medication.

- The student must have the prior written approval of his/her primary healthcare provider. The written notice from the student's primary care provider must specify the name and purpose of the medication, the prescribed dosage, frequency with which it may be administered, and the circumstances that may warrant its use.
- Documentation that the student has demonstrated to the healthcare practitioner and the school nurse, if available, the skill level necessary to use and administer the medication.
- Documentation of a doctor-formulated written treatment plan for managing asthma, severe allergies, or anaphylaxis episodes of the student and for medication use by the student during school hours.

Authorization granted to a student to possess and self-administer medication shall be valid for the current school year only and must be renewed annually.

A student's authorization to possess and self-administer medication may be limited or revoked by the building principal or other administrative personnel.

If provided by the parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian, and in accordance with documentation provided by the student's doctor, backup medication must be kept at a student's school in a predetermined location or locations to which the student has access in the event of an asthma, severe allergy, or anaphylaxis emergency.

Immediately after using epinephrine during school hours, a student shall report to the school nurse or other adult at the school who shall provide follow up care, including making a 9-1-1 emergency call.

Administration of Glucagon

School employees may voluntarily agree to administer glucagon to a student pursuant to § 20-5-412, MCA, only under the following conditions: (1) the employee has filed the necessary designation and acceptance documentation with the District, as required by § 20-5-412(2), MCA, and (2) the employee has filed the necessary written documentation of training with the District, as required by § 20-5-412(4), MCA.

Handling and Storage of Medications

The Board requires that all medications, including those approved for keeping by students for self-medication, be first delivered by a parent, an individual who has executed a caretaker relative educational authorization affidavit, or other responsible adult to a nurse or employee assisting with self-administration of medication. A nurse or assistant:

- Must examine any new medication to ensure it is properly labeled with dates, name of

- student, medication name, dosage, and physician's name;
- Must develop a medication administration plan, if administration is necessary for a student, before any medication is given by school personnel;
- Must record on the student's individual medication record the date a medication is delivered and the amount of medication received;
- Must store medication requiring refrigeration at 36° to 46° F;
- Must store prescribed medicinal preparations in a securely locked storage compartment; and
- Must store controlled substances in a separate compartment, secured and locked at all times.

The District will permit only a forty-five-(45)-school-day supply of a medication for a student to be stored at a school; and all medications, prescription and nonprescription, will be stored in their original containers.

The District will limit access to all stored medication to those persons authorized to administer medications or to assist in the self-administration of medications. The District requires every school to maintain a current list of those persons authorized by delegation from a licensed nurse to administer medications.

Disposal of Medication

The District requires school personnel either to return to a parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian or, with permission of the parent, an individual who has executed a caretaker relative educational authorization affidavit, or guardian, to destroy any unused, discontinued, or obsolete medication. A school nurse, in the presence of a witness, will destroy any medicine not repossessed by a parent or guardian within a seven-(7)-day period of notification by school authorities.

Student Fees, Fines, and Charges

Within the concept of free public education, the District will provide an educational program for students as free of costs as possible.

The Board may charge a student a reasonable fee for any course or activity not reasonably related to a recognized academic and educational goal of the District or for any course or activity taking place outside normal school functions. The Board may waive fees in cases of financial hardship.

The Board delegates authority to the Superintendent to establish appropriate fees and procedures governing collection of fees and asks the Superintendent to make annual reports to the Board regarding fee schedules. The Board also may require fees for actual cost of breakage and for excessive supplies used in commercial, industrial arts, music, domestic science, science, or agriculture courses.

The District holds a student responsible for the cost of replacing materials or property that are lost or damaged because of negligence. A building administrator will notify a student and parent regarding the nature of violation or damage, how restitution may be made, and how an appeal may be instituted. The District may withhold a student's grades or diploma until restitution is made. The District may not refuse to transfer files because a student owes fines or fees. A school district may withhold the grades, diploma, or transcripts of a pupil who is responsible for the cost of school materials or the loss or damage of school property until the pupil or the pupil's parent or guardian satisfies the obligation.

A school district that decides to withhold a pupil's grades, diploma, or transcripts from the pupil and the pupil's parent or guardian shall:

- (i) upon receiving notice that the pupil has transferred to another school district in the state, notify the pupil's parent or guardian in writing that the school district to which the pupil has transferred will be requested to withhold the pupil's grades, diploma, or transcripts until any obligation has been satisfied;
- (ii) forward appropriate grades or transcripts to the school to which the pupil has transferred;
- (iii) at the same time, notify the school district of any financial obligation of the pupil and request the withholding of the pupil's grades, diploma, or transcripts until any obligations are met;
- (iv) when the pupil or the pupil's parent or guardian satisfies the obligation, inform the school district to which the pupil has transferred;

A student or parent may appeal the imposition of a charge for damages to the Superintendent and to the Board.

School student records are confidential, and information from them will not be released other than as provided by law. State and federal laws grant students and parents certain rights, including the right to inspect, copy, and challenge school records.

The District will ensure information contained in student records is current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services will be directly related to the provision of services to that child. The District may release directory information as permitted by law, but parents will have the right to object to release of information regarding their child.

The Superintendent will implement this policy and state and federal law with administrative procedures. The Superintendent or designee will inform staff members of this policy and inform students and their parents of it, as well as of their rights regarding student school records.

Each student's permanent file, as defined by the board of public education, must be permanently kept in a secure location. Other student records must be maintained and destroyed as provided in 20-1-212, MCA.

Transfer of Student Records

The District will forward by mail or by electronic means a certified copy of a permanent or cumulative file of any student and a file of special education records of any student to a local educational agency or accredited school in which a student seeks to or intends to enroll within five (5) working days after receipt of a written or electronic request. The files to be forwarded must include education records in a permanent file – that is, name and address of a student, name of parent or legal guardian, date of birth, academic work completed, level of achievement (grades, standardized tests), immunization records, special education records, and any disciplinary actions taken against a student that are educationally related.

When the District cannot transfer records within five (5) days, the District will notify a requestor, in writing or electronically, and will provide reasons why the District is unable to comply with a five-(5)-day time period. District-Provided Access to Electronic Information, Services, and Networks

General

The District makes Internet access and interconnected computer systems available to District students and faculty. The District provides electronic networks, including access to the Internet, as part its instructional program and to promote educational excellence by facilitating resource sharing, innovation, and communication.

The District expects all students to take responsibility for appropriate and lawful use of this access, including good behavior on-line. The District may withdraw student access to its network and to the Internet when any misuse occurs. District teachers and other staff will make reasonable efforts to supervise use of network and Internet access; however, student cooperation is vital in exercising and promoting responsible use of this access.

Curriculum

Use of District electronic networks will be consistent with the curriculum adopted by the District, as well as with varied instructional needs, learning styles, abilities, and developmental levels of students, and will comply with selection criteria for instructional materials and library materials. Staff members may use the Internet throughout the curriculum, consistent with the District's educational goals.

Internet Safety

Pursuant to the Children's Internet Protection Act, the District will implement measures to prevent:

- access over its computer networks, or the transmission of, inappropriate material through the Internet, electronic mail, chat rooms, or other forms of direct electronic communications;
- unauthorized access and other unlawful online activity; or
- unauthorized online disclosure, use, or dissemination of personal information of students

The District shall use technology protection measures to protect against adults and students using District computers with Internet access from visual depictions that are obscene, child pornography, or, with respect to use by students, harmful to students. Subject to the approval of the Superintendent or designee, an administrator, supervisor, or other authorized person may disable the technology projection measure during use by an adult to enable access for bone fide research or other lawful purpose.

The District's provision of educational services shall include educating students about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

The District will provide reasonable supervision of students using its access to the Internet and will monitor the online activities of students.

Acceptable Uses

1. Educational Purposes Only. All use of the District's electronic network must be: (1) in support of education and/or research, and in furtherance of the District's stated educational goals; or (2) for a legitimate school business purpose. Use is a privilege, not a right. Students and staff members have no expectation of privacy in any materials that are stored, transmitted, or received via the District's electronic network or District computers. The District reserves the right to monitor, inspect, copy, review, and store, at any time and without prior notice, any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage.
2. Unacceptable Uses. Misuse of the District's access to the Internet, electronic mail, chat rooms, or other forms of direct electronic communications includes, but is not limited to, the following:
 - (a) use of the District's access to the Internet, electronic mail, chat rooms, or other forms of direct electronic communications for other than educational purposes;
 - (b) gaining intentional access or maintaining access to materials which are obscene, pornographic, or whose dominant appeal is sexual arousal;
 - (c) using the District's access to the Internet, electronic mail, chat rooms, or other forms of direct electronic communications for any illegal activity, including computer hacking and copyright or intellectual property law violations;
 - (d) accessing "chat lines" unless authorized by the instructor for a class activity directly supervised by a staff member;
 - (e) using abusive or profane language in private messages through the District's access to the Internet, electronic mail, chat rooms, or other forms of direct electronic communications; or using the District's access to the Internet, electronic mail, chat rooms, or other forms of direct electronic communications to harass, insult, or verbally attack others;
 - (f) posting anonymous messages through the District's access to the Internet, electronic mail, chat rooms, or other forms of direct electronic communications;
 - (g) using encryption software;
 - (h) vandalizing data of another user;
 - (i) obtaining or sending information which could be used to make destructive devices such as guns, weapons, bombs, explosives, or fireworks;
 - (j) gaining unauthorized access to resources or files;

- (k) identifying oneself with another person's name or password or using an account or password of another user without proper authorization;
- (l) using the District's access to the Internet, electronic mail, chat rooms, or other

forms of direct electronic communications for financial or commercial gain without District permission; or

- (m) introducing a virus to, or otherwise improperly tampering with the network or the District's access to the Internet, electronic mail, chat rooms, or other forms of direct electronic communications.

Warranties/Indemnification

The District makes no warranties of any kind, express or implied, in connection with its provision of access to and use of its computer networks and the Internet provided under this policy. The District is not responsible for any information that may be lost, damaged, or unavailable when using the network or for any information that is retrieved or transmitted via the Internet. The District will not be responsible for any unauthorized charges or fees resulting from access to the Internet. Any user is fully responsible to the District and will indemnify and hold the District, its trustees, administrators, teachers, and staff harmless from any and all loss, costs, claims, or damages resulting from such user's access to its computer network and the Internet, including but not limited to any fees or charges incurred through purchase of goods or services by a user. The District expects a user or, if a user is a minor, a user's parents or legal guardian to cooperate with the District in the event of its initiating an investigation of a user's use of access to its computer network and the Internet.

Violations

If a student violates this policy, the District will deny the student access or will withdraw access and may subject the student to additional disciplinary action. An administrator or building principal will make all decisions regarding whether or not a user has violated this policy and any related rules or regulations and may deny, revoke, or suspend access at any time, with that decision being final.

Cell Phones and Other Electronic Equipment

Student possession and use of cellular phones, pagers, and other electronic signaling devices on school grounds, at school-sponsored activities and while under the supervision and control of School District employees is a privilege. School authorities reserve the right to restrict the use of such devices during the school day.

Students may use cellular phones, pagers or other electronic signaling devices on campus only before school, during lunch and after the school day ends, unless a school official has specifically authorized the use of the device. These devices must be kept out of sight and turned off during the instructional day (including time out of classroom on a hall pass). School officials, including classroom teachers, may confiscate such devices when used inappropriately. Confiscated devices will only be returned to the parent. Repeat unauthorized use of such devices will result in progressive disciplinary action.

At no time will any student operate a cell phone or other electronic device with video/camera capability in locker room, bathroom or other location where such operation may violate the privacy right of another student.

Public Relations

The District will strive to maintain effective two-way communications with the public to enable the Board and staff to interpret schools' needs to the community and provide a means for citizens to express their needs and expectations to the Board and staff.

The Superintendent will establish and maintain a communication process within the school system and between it and the community. Such public information program will provide for news releases at appropriate times, arrange for media coverage of District programs and events, provide for regular direct communications between individual schools and the citizens they serve, and assist staff in improving their skills and understanding in communicating with the public.

The District may solicit community opinion through parent organizations, parent-teacher conferences, open houses, and other events or activities which may bring staff and citizens together.

Accommodating Individuals with Disabilities

Individuals with disabilities will be provided opportunity to participate in all school-sponsored services, programs, or activities on a basis equal to those without disabilities and will not be subject to illegal discrimination. The District may provide auxiliary aids and services when necessary to afford individuals with disabilities equal opportunity to participate in or enjoy the benefits of a service, program, or activity.

An individual with a disability should notify the Superintendent or building principal if they have a disability which will require special assistance or services. This notification should occur as far as possible before the school-sponsored function, program, or meeting.

Service Animals

The District will comply with all state and federal laws, regulations, and rules regarding the use of service animals by a staff member, student, and community member required because that individual has a disability and the service animal is individually trained to do work or perform tasks for the benefit of that individual.

A service animal is any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this policy. The work or tasks performed by a service animal must be directly related to the individual's disability. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition. The District may permit the use of a miniature horse by an individual with a disability under circumstances established by the Superintendent.

The Superintendent will establish procedures regarding the use of service animals by individuals with disabilities.

Registered Sex Offenders

The State of Montana has determined that perpetrators of certain sex crimes pose a continuing threat to society as a whole even after completion of their criminal sentences. Recognizing that the safety and welfare of students is of paramount importance, the District declares that, except in limited circumstances, its property should be off limits to registered sex offenders.

Employment

Notwithstanding any other Board policy, individuals listed by the State of Montana as registered sex offenders are ineligible for employment in any position within the District. However, the Superintendent shall have discretion consistent with other Board policies to recommend an individual whose name has been expunged from the Sex Offender Registry.

School Off Limits

The District hereby declares that no registered sex offender whose victim was a minor may come on, about, or within one thousand (1,000) feet of any District-owned buildings or property except as otherwise provided in this policy. If an administrator becomes aware that such a sex offender is on, about, or within one thousand (1,000) feet of school property, the administrator shall direct the sex offender to immediately leave the area. The Board authorizes the administrator to request the assistance of the appropriate law enforcement authorities to secure the removal of any registered sex offender from the area. If a registered sex offender disregards the terms of this policy or the directives of the school administrator, then the Superintendent is authorized to confer with counsel and to pursue such criminal or civil action as may be necessary to enforce compliance with this policy.

This policy shall not be construed to impose any duty upon any administrator or any other employee of the District to review the Sex Offender Registry or to screen individuals coming on or within one thousand (1,000) feet of school property to ascertain whether they are on the Registry. This policy shall only apply when administrators are actually aware that the person in question is on the Sex Offender Registry and that the offender's victim was a minor.

Rights of Parents on the Sex Offender Registry

In the event that a registered sex offender whose victim was a minor has a child attending the District, the administrator of the school where the child attends shall be authorized to modify this policy's restrictions to permit the parent to drop off and pick up the child from school and to come onto campus to attend parent-teacher conferences. However, the parent may not linger on or about school property before or after dropping off his or her child, and the parent is prohibited from being in any part of the school building except the main office.

This policy does not impose a duty upon the administrator of any school or any other employee of the District to review the Sex Offender Registry and the school system's directory information to ascertain whether a registered sex offender may have a child attending school in the District. The provisions of this policy shall apply only if an administrator actually becomes aware that a parent of a student at the school is a registered sex offender.

To facilitate voluntary compliance with this policy, administrators are encouraged to speak with any affected parents upon learning of their status as registered sex offenders to communicate the restrictions of this policy. At all times, the administrator shall endeavor to protect the privacy of the offender's child.

In the event of a truly exceptional situation, a parent on the Sex Offender Registry may ask the Superintendent for a waiver of this policy to permit the parent to attend these special events. It is the intent of the Board, however, that these special circumstances be truly unusual and infrequent occurrences.

The Board recognizes the importance of engaging families in the education of children. The Superintendent and staff shall undertake activities designed to:

- Encourage families to actively participate in the life of their children's schools;
- Ensure families feel welcomed, valued, and connected to one another, school staff, and to what students are learning and doing in class;
- Encourage families and school staff to engage in regular, two-way meaningful communication about student learning;
- Ensure continuous collaboration between families and school staff to support student learning and healthy development both at home and at school and have regular opportunities to strengthen their knowledge and skills to do so effectively;
- Empower families to be advocates for their own and other children to ensure that students are treated equitably and have access to learning opportunities that will support their success;
- Allow families and school staff to partner in decisions that affect children and families and together inform, influence, and create policies, practices, and programs;
- Encourage families and school staff to collaborate with members of the community to connect students, families, and staff to expand learning opportunities, community services, and civic preparation;
- Encourage families and school staff to collaborate with members of the community to connect students, families, and staff to post-secondary education opportunities, including workforce training, apprenticeship opportunities, career pathways, and degree programs, and encourage students to explore college and career planning tools (including Free Application for Federal Student Aid completion) and incentives provided by post-secondary institutions.

Sexual Harassment

The District shall provide employees an environment free of sexual harassment as defined and otherwise prohibited by State and federal law, including Title IX and its implementing regulations, in the educational programs and activities it offers, including the area of employment. Sexual harassment means conduct on the basis of sex that satisfies one or more of the following:

- (1) An employee of the District conditioning the provision of an aid, benefit, or service of the District on an individual's participation in unwelcome sexual conduct;
- (2) Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District's education program or activity; or
- (3) "Sexual assault" as defined in 20 U.S.C. § 1092(f)(6)(A)(v), "dating violence" as defined in 34 U.S.C. § 12291(a)(10), "domestic violence" as defined in 34 U.S.C. § 12291(a)(8), or "stalking" as defined in 34 U.S.C. § 12291(a)(30).

A violation of this policy may result in discipline, up to and including discharge. Any person making a knowingly false accusation regarding sexual harassment will likewise be subject to disciplinary action, up to and including discharge.

Employees should report claims of sexual harassment to the District's Title IX Coordinator and/or use the District's Title IX Sexual Harassment Grievance Procedures. All formal complaints about behavior that may violate this policy shall be addressed through the District's Title IX Sexual Harassment Grievance Procedures. Initiating a complaint of sexual harassment shall not adversely affect the complainant's employment, compensation or work assignments.

Bullying/Harassment/Intimidation

The Board will strive to provide a positive and productive working environment. Bullying, harassment or intimidation between employees or by third parties is strictly prohibited and shall not be tolerated. This includes bullying, harassment or intimidation via electronic communication devices (“cyber bullying”).

Definitions

- A “hostile” working environment is one in which the offensive speech or conduct of another person or persons is so severe or pervasive as to interfere with an employee’s ability to perform his or her job. To be sufficiently severe, the working environment must be one that a reasonable person would find hostile and abusive. In making its determination, the District shall look at all the circumstances, including the frequency of the offensive speech or conduct; its severity, whether it is physically threatening or humiliating or merely an offensive utterance; and whether it unreasonably interferes with an employee’s work performance. To be considered “hostile,” the speech or conduct must go beyond rudeness or casual joking, reaching a level of harassment, mockery, ridicule and/or unrelenting teasing. Isolated incidents or petty slights are generally not sufficient to create a hostile working environment. In the absence of any of the conditions described above, actions such as the issuance of a lawful directive, a disciplinary action, a negative performance evaluation, a recommendation for the nonrenewal of an employment contract or the denial for a request for an employment benefit may not constitute the basis for a claim under this policy, but may be pursued through other dispute resolution procedures.
- “Third parties” include but are not limited to coaches, school volunteers, parents, school visitors, service contractors, or others engaged in District business, such as employees of businesses or organizations participating in cooperative work programs with the District, and others not directly subject to District control at inter-district and intra-District athletic competitions or other school events.
- “District” includes District facilities, District premises, and non-District property if the employee is at any District-sponsored, District-approved, or District-related activity or function, such as field trips or athletic events, where the employee is engaged in District business.
- “Harassment, intimidation, or bullying” means any act that substantially interferes with an employee’s opportunities or work performance, that takes place on or immediately adjacent to school grounds, at any school-sponsored activity, on school-provided transportation, or anywhere conduct may reasonably be considered to be a threat or an attempted intimidation of a staff member or an interference with school purposes or an educational function, and that has the effect of:
 - Physically harming an employee or damaging an employee’s property;
 - Knowingly placing an employee in reasonable fear of physical harm to the employee or damage to the employee’s property; or

- Creating a hostile working environment.
- “Electronic communication device” means any mode of electronic communication, including but not limited to computers, cell phones, PDAs, or the internet.

Reporting

All complaints about behavior which allege facts that, if true, could be reasonably found to violate this policy shall be promptly investigated. The investigation may be suspended or terminated if the employee files a claim in another forum making allegations that are the same or similar to those presented in the complaint. Any employee or third party who has knowledge of conduct in violation of this policy or feels he/she has been a victim of harassment, intimidation or bullying in violation of this policy is encouraged to immediately report his/her concerns to the building principal, who has overall responsibility for such investigations. Complaints against the building principal shall be filed with the Superintendent. Complaints against the Superintendent shall be filed with the Board.

The complainant shall be notified of the findings of the investigation and, as appropriate, that remedial action has been taken.

Responsibilities

The Superintendent shall be responsible for ensuring that notice of this policy is provided to staff and third parties and for the development of administrative regulations, including reporting and investigative procedures, as needed.

Consequences

Staff whose behavior is found to be in violation of this policy will be subject to discipline up to and including dismissal. Third parties whose behavior is found to be in violation of this policy shall be subject to appropriate sanctions as determined and imposed by the Superintendent or the Board. Individuals may also be referred to law enforcement officials.

Retaliation and Reprisal

Retaliation is prohibited against any person who reports or is thought to have reported a violation, files a complaint, or otherwise participates in an investigation or inquiry. Such retaliation shall be considered a serious violation of Board policy, whether or not a complaint is substantiated. False charges shall also be regarded as a serious offense and will result in disciplinary action or other appropriate sanctions.

Hiring Process and Criteria

The Superintendent is responsible for recruiting personnel, in compliance with Board policy, and for making hiring recommendations to the Board. The District will hire qualified personnel consistent with Montana law, budget and staffing requirements and in compliance with law on equal employment opportunities and veterans' preference. All applicants must complete a District application form to be considered for employment.

Every applicant must provide the District with written authorization for a criminal background investigation. The Superintendent will keep any conviction record confidential as required by law and District policy. Every newly hired employee must complete all necessary employment verification forms as required by federal and/or state law.

Certification

The District requires its contracted certified staff to hold valid Montana teacher or specialist certificates endorsed for the roles and responsibilities for which they are employed. Failure to meet this requirement shall be just cause for termination of employment. No salary warrants may be issued to a staff member, unless a valid certificate for the role to which the teacher has been assigned has been registered with the county superintendent within sixty (60) calendar days after a term of service begins. Every teacher and administrator under contract must bring their current, valid certificate to the personnel office at the time of initial employment, as well as at the time of each renewal of certification.

The personnel office will register all certificates, noting class and endorsement of certificates, and will update permanent records as necessary. The personnel office also will retain a copy of each valid certificate of a contracted certified employee in that employee's personnel file.

Applicability of Personnel Policies

Except where expressly provided to the contrary, personnel policies apply uniformly to the employed staff of the District. However, where there is a conflict between terms of a collective bargaining agreement and District policy, the law provides that the terms of the collective bargaining agreement shall prevail for staff covered by that agreement.

Board policies will govern when a matter is not specifically provided for in an applicable collective bargaining agreement.

Criminal Background Investigations

Board policy requires that any finalist recommended to be employed in a paid or volunteer position with the District, involving regular unsupervised access to students in schools, as determined by the Superintendent, shall submit to a criminal background investigation conducted by the appropriate law enforcement agency or other approved entity. Any offer of employment or appointment will be contingent on results of the criminal background check. In the event that the background check cannot be obtained in a timely fashion, an individual may be recommended for hire or appointment contingent upon positive results of a background check and allowed to work with students through an arrangement which provides for temporary supervision of the employee or volunteer on an as-needed basis.

The following applicants, as a condition for any offer of employment, will be required to authorize, in writing, a name-based and fingerprint criminal background investigation:

- A certified teacher seeking full- or part-time employment with the District;
- An educational support personnel employee seeking full- or part-time employment with the District;
- An employee of a person or firm holding a contract with the District, if the employee is assigned to the District;
- A volunteer assigned to work in the District, who has regular unsupervised access to students; and
- Non-licensed substitute teachers.

Any requirement of an applicant to submit to a fingerprint background check will be in compliance with the Volunteers for Children Act of 1998 and applicable federal regulations. If an applicant has any prior record of arrest or conviction by any local, state, or federal law enforcement agency for an offense other than a minor traffic violation, the facts must be reviewed by the Superintendent, who will decide whether the applicant will be declared eligible for appointment or employment. Arrests resolved without conviction will not be considered in the hiring process, unless the charges are pending.

Staff Health

Medical Examinations

Through its overall safety program and various policies pertaining to school personnel, the Board will promote the safety of employees during working hours and assist them in the maintenance of good health. The Board will encourage all its employees to maintain optimum health through the practice of good health habits.

The Board may require physical examinations of its employees, under circumstances defined below. The District will maintain results of physical examinations in medical files separate from the employee's personnel file and will release them only as permitted by law.

Physical Examinations

If the work is of a physically demanding nature, subsequent to a conditional offer of employment and prior to a commencement of work, the District may require an applicant to have a medical examination and to meet any other health requirements that may be imposed by the State. The District may condition an offer of employment on the results of such examination, if all employees who received a conditional offer of employment in the applicable job category are subject to such examination. The report shall certify the employee's ability to perform the job-related functions of the position for which the employee is being considered. Such examination shall be used only to determine whether the applicant is able to perform with reasonable accommodation job-related functions.

All bus drivers, whether full-time, regular part-time, or temporary part-time, are required by state law to have a satisfactory medical examination before employment.

Communicable Diseases

If a staff member has a communicable disease and has knowledge that a person with compromised or suppressed immunity attends the school, the staff member must notify the school nurse or other responsible person designated by the Board of the communicable disease which could be life threatening to an immune-compromised person. The school nurse or other responsible person designated by the Board must determine, after consultation with and on the advice of public health officials, if the immune-compromised person needs appropriate accommodation to protect their health and safety.

An employee with a communicable disease shall not report to work during the period of time in which the employee is infectious. An employee afflicted with a communicable disease capable of being readily transmitted in the school setting (e.g., airborne transmission of tuberculosis) shall be encouraged to report the existence of the illness so that precautions may be taken to protect the health of others. The District reserves the right to require a statement from an employee's primary care provider, before the employee may return to work.

Confidentiality

In all instances, District personnel will respect an individual's right to privacy and treat any medical diagnosis as confidential information. Any information obtained regarding the medical condition or history of any employee will be collected and maintained on separate forms and in separate medical files and will be treated as confidential information. Only those individuals with a legitimate need to know (i.e., those persons with a direct responsibility for the care of or for determining workplace accommodation for the staff person) will be provided necessary medical information.

Supervisors and managers may be informed of necessary restrictions on the work or duties of an employee and necessary accommodations. First aid and safety personnel may be informed, when appropriate, if a staff member with a disability might require emergency treatment.

All District employees shall participate in retirement programs under the Federal Social Security Act and either the Teachers' Retirement System or the Public Employees' Retirement System in accordance with state retirement regulations.

Certified employees who intend to retire at the end of the current school year should notify the Superintendent in writing according to terms of the current collective bargaining agreement.

Those employees intending to retire, who are not contractually obligated to complete the school year, should notify the Superintendent as early as possible and no less than sixty (60) days before their retirement date.

The relevant and most current negotiated agreements for all categories of employees shall specify severance stipends and other retirement conditions and benefits.

The District will contribute to the PERS whenever a classified employee is employed for more than the equivalent of one hundred twenty (120) full days (960 hours) in any one (1) fiscal year. Part-time employees who are employed for less than 960 hours in a fiscal year may elect PERS coverage, at their option and in accordance with § 19-3-412, MCA.

Disciplinary Action

District employees who fail to fulfill their job responsibilities or to follow reasonable directions of their supervisors, or who conduct themselves on or off the job in ways that affect their effectiveness on the job, may be subject to discipline. Behavior, conduct, or action that may call for disciplinary action or dismissal includes but is not limited to reasonable job-related grounds based on a failure to satisfactorily perform job duties, disruption of the District's operation, or other legitimate reasons.

Discipline will be reasonably appropriate to the circumstance and will include but not be limited to a supervisor's right to reprimand an employee and the Superintendent's right to suspend an employee, with or without pay, or to impose other appropriate disciplinary sanctions. In accordance with Montana law, only the Board may terminate an employee or non-renew employment.

The Superintendent is authorized to immediately suspend a staff member.

Reduction in Force

The Board has exclusive authority to determine the appropriate number of employees. A reduction in certified employees may occur as a result of but not be limited to changes in the education program, staff realignment, changes in the size or nature of the student population, financial considerations, or other reasons deemed relevant by the Board.

The Board will follow the procedure stated in the current collective bargaining agreement when considering a reduction in force. The reduction in certified employees, other than administrators, will generally be accomplished through normal attrition when possible. The Board may terminate certified employees, if normal attrition does not meet the required reduction in force.

The Board will consider performance evaluations, staff needs, and other reasons it deems relevant, in determining order of dismissal when it reduces classified staff or discontinues some type of educational service.

Leaves of Absence

Sick and Bereavement Leave

Certified employees will be granted sick leave according to terms of their collective bargaining agreement.

Certified employees will be granted sick leave according to terms of the collective bargaining agreement. Administrators shall be granted sick leave pursuant to the terms of their individual contracts. Classified employees shall be granted sick leave pursuant to Montana law governing public employees. Unless otherwise stated by contract, "sick leave" means a leave of absence, with pay, for an illness suffered by an employee of his or her immediate family. "Immediate family" means the employee's spouse, parents, grandparents, siblings, children and like relations of the spouse. A maximum of three (3) days of accumulated sick leave may be used per year because of death in the immediate family.

Nothing in this policy guarantees approval of the granting of such leave in any instance. The District will judge each request in accordance with this policy and governing collective bargaining agreements.

It is understood that seniority will accumulate while a teacher or employee is utilizing sick leave credits. Seniority will not accumulate, unless an employee is in a paid status. Abuse of sick leave is cause for disciplinary action up to and including termination.

Personal Leave

Certified employees will be granted personal and emergency leave according to the terms of their teaching contracts. Administrators will be granted personal and emergency leave pursuant to the terms of their individual contracts, or at the discretion of the Board. Classified staff may be granted personal and emergency leave pursuant to the terms and conditions stated in the current classified staff handbook. Personal and emergency leave is without pay unless otherwise stated.

Civic Duty Leave

Leaves for service on either a jury or in the Legislature will be granted in accordance with state and federal law. A certified staff member hired to replace one serving in the Legislature does not acquire tenure.

An employee who is summoned to jury duty or subpoenaed to serve as a witness may elect to receive regular salary or to take annual leave during jury time. An employee who elects not to take annual leave, however, must remit to the District all juror and witness fees and allowances

(except for expenses and mileage). The District may request the court to excuse an employee from jury duty, when an employee is needed for proper operation of the school.

Military Leave

Pursuant to the Uniformed Services Employment and Reemployment Rights Act (USERRA) and the Montana Military Service Employment Rights, the Superintendent shall grant military leave to employees for voluntary or involuntary service in the uniformed services of the United States, upon receipt of the required notice. Benefits shall be maintained for these employees as required by law and/or collective bargaining agreements. A service member who returns to the District for work following a period of active duty must be reinstated to the same or similar position and at the same rate of pay unless otherwise provided by law.

Time spent in active military service shall be counted in the same manner as regular employment for purposes of seniority or District service unless otherwise provided in a collective bargaining agreement.

The District will not discriminate in hiring, reemployment, promotion, or benefits based upon membership or service in the uniformed services.

All requests for military leave will be submitted to the Superintendent, in writing, accompanied by copies of the proper documentation showing the necessity for the military leave request.

When possible, all requests for military leave will be submitted at least one (1) full month in advance of the date military service is to begin.

Persons returning from military leave are asked to give the Superintendent notice of intent to return, in writing, as least one (1) full month in advance of the return date.

Breastfeeding Workplace

Recognizing that breastfeeding is a normal part of daily life for mothers and infants and that Montana law authorizes mothers to breastfeed their infants where mothers and children are authorized to be, the District will support women who want to continue breastfeeding after returning from maternity leave.

The District shall provide reasonable unpaid break time each day to an employee who needs to express milk for the employee's child, if breaks are currently allowed. If breaks are not currently allowed, the District shall consider each case and make accommodations as possible. The District is not required to provide break time if to do so would unduly disrupt the District's operations. Supervisors are encouraged to consider flexible schedules when accommodating employee's needs.

The District will make reasonable efforts to provide a room or other location, in close proximity to the work area, other than a toilet stall, where an employee can express the employee's breast milk. The available space will include the provision for lighting and electricity for the pump apparatus. If possible, supervisors will ensure that employees are aware of these workplace accommodations prior to maternity leave.

Family Medical Leave

In accordance with provisions of the Family Medical Leave Act of 1993 (FMLA), a leave of absence of up to twelve (12) weeks during a twelve-(12)-month period may be granted to an eligible employee for the following reasons: 1) birth of a child; 2) placement of a child for adoption or foster care; 3) a serious health condition which makes the employee unable to perform functions of the job; 4) to care for the employee's spouse, child, or parent with a serious health condition; 5) because of a qualifying exigency (as the Secretary shall, by regulation, determine) arising out of the fact that the spouse or a son, daughter, or parent of the employee is on active duty (or has been notified of an impending call or order to active duty) in the Armed Forces in support of a contingency operation.

Servicemember Family Leave

Subject to Section 103 of the FMLA of 1993, as amended, an eligible employee who is the spouse, son, daughter, parent, or next of kin of a covered servicemember shall be entitled to a total of twenty-six (26) workweeks of leave during a twelve-(12)-month period to care for the servicemember. The leave described in this paragraph shall only be available during a single twelve-(12)-month period.

Eligibility

An employee is eligible to take FMLA leave, if the employee has been employed for at least twelve (12) months and has worked at least one thousand two hundred fifty (1,250) hours during the twelve (12) months immediately prior to the date leave is requested, and there have been at least fifty (50) District employees within seventy-five (75) miles for each working day during twenty (20) or more workweeks in the current or preceding calendar year.

The Board has determined that the 12-month period in which an employee may take FMLA leave will be measured forward from the first date an employee takes FMLA leave.

Coordination of Paid Leave

Employees will be required to use appropriate paid leave while on FMLA leave. Workers' compensation absences will be designated FMLA leave.

Medical Certification

Workers' Compensation Benefits

All employees of the District are covered by workers' compensation benefits. In the event of an industrial accident, an employee should:

1. Attend to first aid and/or medical treatment during an emergency;
2. Correct or report as needing correction a hazardous situation as soon as possible after an emergency situation is stabilized;
3. Report the injury or disabling condition, whether actual or possible, to the immediate supervisor, within forty-eight (48) hours, on the Employer's First Report of Occupational Injury or Disease; and
4. Call or visit the administrative office after medical treatment, if needed, to complete the necessary report of accident and injury on an Occupational Injury or Disease form.

The administrator will notify the immediate supervisor of the report and will include the immediate supervisor as necessary in completing the required report.

An employee who is injured in an industrial accident may be eligible for workers' compensation benefits. By law, employee use of sick leave must be coordinated with receipt of workers' compensation benefits, on a case-by-case basis, in consultation with the Workers' Compensation Division, Department of Labor and Industry.

The District will not automatically and simply defer to a report of industrial accident but will investigate as it deems appropriate to determine: (1) whether continuing hazardous conditions exist which need to be eliminated; and (2) whether in fact an accident attributable to the District working environment occurred as reported. The District may require the employee to authorize the employee's physician to release pertinent medical information to the District or to a physician of the District's choice, should an actual claim be filed against the Workers' Compensation Division, which could result in additional fees being levied against the District.

Employee use of Electronic Mail, Internet, and District Equipment

Electronic mail ("e-mail") is an electronic message that is transmitted between two (2) or more computers or electronic terminals, whether or not the message is converted to hard-copy format after receipt, and whether or not the message is viewed upon transmission or stored for later retrieval. E-mail includes all electronic messages that are transmitted through a local, regional, or global computer network.

Because of the unique nature of e-mail/Internet, and because the District desires to protect its interest with regard to its electronic records, the following rules have been established to address e-mail/Internet usage by all employees:

1. The District e-mail and Internet systems are intended to be used for educational purposes only, and employees should have no expectation of privacy when using the e-mail or Internet systems for any purpose. Employees have no expectation of privacy in District owned technology equipment, including but not limited to District-owned desktops, laptops, memory storage devices, and cell phones.
2. Users of District e-mail and Internet systems are responsible for their appropriate use. All illegal and improper uses of the e-mail and Internet system, including but not limited to extreme network etiquette violations including mail that degrades or demeans other individuals, pornography, obscenity, harassment, solicitation, gambling, and violating copyright or intellectual property rights, are prohibited. Abuse of the e-mail or Internet systems through excessive personal use, or use in violation of the law or District policies, will result in disciplinary action, up to and including termination of employment.
3. All e-mail/Internet records are considered District records and should be transmitted only to individuals who have a need to receive them. If the sender of an e-mail or Internet message does not intend for the e-mail or Internet message to be forwarded, the sender should clearly mark the message "Do Not Forward."

In order to keep District e-mail and Internet systems secure, users may not leave the terminal "signed on" when unattended and may not leave their password available in an obvious place near the terminal or share their password with anyone except the system administrator. The District reserves the right to bypass individual passwords at any time and to monitor the use of such systems by employees.

Additionally, District records and e-mail/Internet records are subject to disclosure to law enforcement or government officials or to other third parties through subpoena or other process. Consequently, the District retains the right to access stored records in cases where there is reasonable cause to expect wrongdoing or misuse of the system and to review, store, and disclose all information sent over the District e-mail systems for any legally permissible reason, including

but not limited to determining whether the information is a public record, whether it contains information discoverable in litigation, and to access District information in the employee's absence. Employee e-mail/Internet messages may not necessarily reflect the views of the District.

Except as provided herein, District employees are prohibited from accessing another employee's e-mail without the expressed consent of the employee. All District employees should be aware that e-mail messages can be retrieved, even if they have been deleted, and that statements made in e-mail communications can form the basis of various legal claims against the individual author or the District.

E-mail sent or received by the District or the District's employees may be considered a public record subject to public disclosure or inspection. All District e-mail and Internet communications may be monitored.

An individual User Release form must be filed with the District.

Electronic Resources and Social Networking

The District recognizes that an effective public education system develops students who are globally aware, civically engaged, and capable of managing their lives and careers. The District also believes that students need to be proficient users of information, media, and technology to succeed in a digital world.

Public school employees are held to a high standard of behavior. The Montana Department of Education *Professional Educators of Montana Code of Ethics* requires District staff to maintain a professional relationship with each student, both in and outside the classroom. The District encourages all staff to read and become familiar with the Code of Ethics.

Therefore, the District will use electronic resources as a powerful and compelling means for students to learn core subjects and applied skills in relevant and rigorous ways. It is the District's goal to provide students with rich and ample opportunities to use technology for important purposes in schools just as individuals in workplaces and other real-life settings. The District's technology will enable educators and students to communicate, learn, share, collaborate and create, to think and solve problems, to manage their work and to take ownership of their lives.

The School Board discourages district staff from socializing with students on social networking websites (during school or out-of-school). Staff are reminded that the same relationship, exchange, interaction, information, or behavior that would be unacceptable in a non-technological medium, is unacceptable when done through the use of technology. In fact, due to the vastly increased potential audience digital dissemination presents, extra caution must be exercised by staff to ensure they don't cross the line of acceptability.

Specifically, the following forms of technology-based interactivity or connectivity are expressly not permitted or forbidden:

- Sharing personal landline or cell phone numbers with students;
- Text messaging students;
- Emailing students other than through and to school controlled and monitored accounts;
- Soliciting students as friends or contacts on social networking sites;
- Accepting the solicitation of students as friends or contacts on social networking sites;
- Sharing with students access information to personal websites or other media through which the staff member would share personal information and occurrences.

What in other mediums of expression could remain private opinions, when expressed by staff on a social networking website, have the potential to be disseminated far beyond the speaker's desire or intention, and could undermine the public perception of fitness of the individual to educate students, and thus undermine teaching effectiveness. In this way, the effect of the expression and publication of such opinions could potentially lead to disciplinary action being

taken against the staff member, up to and including termination or nonrenewal of the contract of employment.

Staff shall not access social networking sites using District equipment or personal equipment, including during breaks or preparation periods, during the instructional day, except if the staff member has a duty free period. All school district employees who participate in social networking websites, shall not post any school district data, documents, photographs, logos, or other district owned or created information on any website. Further, the posting of any private or confidential school district material on such websites is strictly prohibited.

The Board directs the Superintendent or his/her designee to create strong electronic educational systems that support innovative teaching and learning, to provide appropriate staff development opportunities and to develop procedures to support this policy.

HIPAA

Health Insurance Portability and Accountability Act of 1996 (HIPAA)

The District's group health plan is a Covered Entity under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and its implementing regulations, the Standards for the Privacy of Individually Identifiable Information. In order to comply with HIPAA and its related regulations, the District has implemented the following HIPAA Privacy Policy:

The HIPAA Privacy Rule

The standards found in the Privacy Rule are designed to protect and guard against the misuse of individually identifiable health information, with particular concern regarding employers using an employee's (or dependent's) health information from the group health plan to make adverse employment-related decisions. The Privacy Rule states that verbal, written, or electronic information that can be used to connect a person's name or identity with medical, treatment, or health history information is Protected Health Information (PHI) under the HIPAA Privacy Rule.

Under the HIPAA Privacy Rule:

1. Individuals have a right to access and copy their health record to the extent allowed by HIPAA.
2. Individuals have the right to request an amendment to their health record. The plan may deny an individual's request under certain circumstances specified in the HIPAA Privacy Rule.
3. Individuals have the right to an accounting of disclosures of their health record for reasons other than treatment, payment, or healthcare operations.
4. PHI, including health, medical, and claims records, can be used and disclosed without authorization for specific, limited purposes (treatment, payment, or operations of the group health plan). A valid authorization from the individual must be provided for use or disclosure for other than those purposes.
5. Safeguards are required to protect the privacy of health information.
6. Covered entities are required to issue a notice of privacy practices to their enrollees.
7. Violators are held accountable with civil and criminal penalties for improper use or disclosure of PHI.

Compliance

The District has been designated the Privacy Officer. The Privacy Officer will oversee all ongoing activities related to the development, implementation, maintenance of, and adherence to the District's policies and procedures covering the privacy of and access to patient health information in compliance with HIPAA, other applicable federal and state laws, and the

District's privacy practices.

As required for a Covered Entity under HIPAA, the plan has developed these internal privacy policies and procedures to assure that PHI is protected and that access to and use and disclosure of PHI are restricted in a manner consistent with HIPAA's privacy protections. The policies and procedures recognize routine and recurring disclosures for treatment, payment, and healthcare operations and include physical, electronic, and procedural safeguards to protect PHI. The procedures include safeguards for sending PHI via mail or fax, receiving PHI for plan purposes, and workstation safeguards and procedures for securing and retaining PHI received by the plan. Plan participants are entitled to receive a copy of the plan's policies and procedures upon request.

The District has distributed a notice of privacy practices to plan participants. The notice informs plan participants of their rights and the District's privacy practices related to the use and disclosure of PHI. A copy of this notice may be obtained by contacting the Privacy Officer.

The HIPAA Privacy Rule prohibits the District from disclosing medical information without the patient's written permission other than for treatment, payment, or healthcare operations purposes. An authorization signed by the patient and designating specified individuals to whom the District may disclose specified medical information must be on file, before the plan can discuss a patient's medical information with a third party (such as a spouse, parent, group health plan representative, or other individual).

The District has taken the following steps to ensure PHI is safeguarded:

3. The District has implemented policies and procedures to designate who has and who does not have authorized access to PHI.
4. Documents containing PHI are kept in a restricted/locked area.
5. Computer files with PHI are password protected and have firewalls making unauthorized access difficult.
6. Copies of PHI will be destroyed when information is no longer needed, unless it is required by law to be retained for a specified period of time.
7. The District will act promptly to take reasonable measures to mitigate any harmful effects known to the group health plan, due to a use or disclosure of PHI in violation of the plan's policies, procedures, or requirements of the HIPAA Privacy Rule.
8. The District will appropriately discipline employees who violate the District's group health plan's policies, procedures, or the HIPAA Privacy Rule, up to and including termination of employment if warranted by the circumstances.

The District will ensure health information will not be used in making employment and compensation decisions. The HIPAA Privacy Rule and other applicable laws expressly prohibit an employer from making adverse employment decisions (demotions, terminations, etc.) based on health information received from the group health plan. To the extent possible, the District

has separated the plan operations functions from the employment functions and has safeguards in place to prevent PHI from the plan from going to or being used by an employee's supervisor, manager, or superior to make employment-related decisions.

Complaints

If an employee believes their privacy rights have been violated, they may file a written complaint with the Privacy Officer.

The Superintendent is authorized to develop administrative procedures to implement Board policy and to delegate duties and responsibilities; however, delegation of a power or duty does not relieve the Superintendent of responsibility for that which was delegated.

The Superintendent must be appropriately licensed and endorsed in accordance with state statutes and Board of Public Education rules; or considered appropriately assigned if the Superintendent is enrolled in an internship program and meets the requirements of Montana regulations.

A specific time shall be designated for a formal evaluation session. The evaluation will include a discussion of professional strengths, as well as performance areas needing improvement.

Compensation and Benefits

The Board and the Superintendent will enter into a contract which conforms to this policy and state law. The contract will govern the employment relationship between the Board and the Superintendent.

Evaluation of Administrative Staff

Each administrator will be evaluated annually, in order to provide guidance and direction to the administrator in the performance of his/her assignment. Such evaluation will be based on job descriptions, accomplishment of annual goals and performance objectives, and established evaluative criteria. Administrators have a right to access to the evaluation instrument and a right to respond in writing to the completed evaluation.

The Superintendent shall establish procedures for the conduct of these evaluations. Near the beginning of the school year, the Superintendent shall inform the administrator of the criteria to be used for evaluation purposes, including the adopted goals for the District. Such criteria shall include performance statements dealing with leadership; administration and management; school financing; professional preparation; effort toward improvement; interest in students, staff, citizens, and programs; and staff evaluation.

Both the evaluator and the administrator involved in the evaluation will sign the written evaluation report and retain a copy for their records. Budget Adjustments

When any budgeted fund line item is in excess of the amount required, the Board may transfer any of the excess appropriation to another line item(s) within the same fund.

The Board authorizes the administration to transfer line items within the same budgeted fund to adjust line item overdrafts or to meet special line item needs. Line item budget transfers to adjust line item overdrafts are at the discretion of the administrators.

Total budget expenditures for each fund as adopted in the final budget shall constitute the appropriations of the District for the ensuing fiscal year. The Board will be limited in the incurring of expenditures to the total of such appropriations.

With timely notice of a public meeting, trustees, by majority vote of those present, may declare by resolution that a budget amendment (in addition to the final budget) is necessary. Budget amendments are authorized for specified reasons by § 20-9-161, MCA. The resolution will state the facts of the budget amendment, the estimated amount of funds needed, and the time and place the Board will meet for the purpose of considering and adopting a budget amendment.

The meeting to adopt a budget amendment will be open and will provide opportunity for any taxpayer to appear and be heard. Budget procedures will be consistent with statutory requirements. When applicable, the District will apply for state financial aid to supplement the amount to be collected from local taxes.

The Board may accept gifts, endowments, legacies, and devises subject to the lawful conditions imposed by the donor. Neither the Board nor the Superintendent will approve any gifts that are inappropriate. Except where otherwise specified by the donor, the Board may deposit the gift, legacy, devise, or proceeds in any budgeted or nonbudgeted fund and may thereafter transfer any portion of the gift, legacy, devise, or proceeds to any other fund at the Board's discretion. The Board may transfer any previously donated funds deposited into an endowment fund along with any accumulated interest to any other budgeted or nonbudgeted fund and may spend such funds at the discretion of the Board unless restricted by the donor. Purchasing

Authorization and Control

The Superintendent is authorized to direct expenditures and purchases within limits of the detailed annual budget for the school year. The Board must approve purchase of capital outlay items, when the aggregate total of a requisition exceeds Eighty Thousand Dollars (\$80,000) except the Superintendent shall have the authority to make capital outlay purchases without advance approval when necessary to protect the interests of the District or the health and safety of staff or students. The Superintendent will establish requisition and purchase order procedures to control and maintain proper accounting of expenditure of funds. Staff who obligate the District without proper authorization may be held personally responsible for payment of such obligations. The Board adopts all applicable provisions of the Montana Procurement Act.

Bids and Contracts

Whenever any building furnishing, repairing, or other work for the benefit of the District or purchasing of supplies for the District is necessary, the work done or the purchase made must be by contract if the sum exceeds Eighty Thousand Dollars (\$80,000). The District will call for formal bids by issuing public notice as specified in statute. Specifications will be prepared and made available to all vendors interested in submitting a bid. The contract shall be awarded to the lowest responsible bidder, except that the trustees may reject any or all bids. The Board, in making a determination as to which vendor is the lowest responsible bidder, will take into consideration not only the amount of each bid, but will also consider the skill, ability, and integrity of a vendor to do faithful, conscientious work and to promptly fulfill the contract according to its letter and spirit. Bidding requirements do not apply to a registered professional engineer, surveyor, real estate appraiser, or registered architect; a physician, dentist, pharmacist, or other medical, dental, or health care provider; an attorney; a consulting actuary; a private investigator licensed by any jurisdiction; a claims adjuster; or an accountant licensed under Title 37, Chapter 50.

Advertisement for bid must be made once each week for two (2) consecutive weeks, and a second (2nd) publication must be made not less than five (5) nor more than twelve (12) days before consideration of bids.

The Superintendent will establish bidding and contract-awarding procedures. Bid procedures will be waived only as specified in statute, such as §§ 18-2-501, 502 and 503, MCA. Any contract required to be let for bid shall contain language to the following effect:

In making a determination as to which vendor is the lowest responsible bidder, if any, the District will take into consideration not only the pecuniary ability of a

vendor to perform the contract, but will also consider the skill, ability, and integrity of a vendor to do faithful, conscientious work and promptly fulfill the contract according to its letter and spirit. References must be provided and will be contacted. The District further reserves the right to contact others with whom a vendor has conducted business, in addition to those listed as references, in determining whether a vendor is the lowest responsible bidder. Additional information and/or inquiries into a vendor's skill, ability, and integrity are set forth in the bid specifications.

Cooperative Purchasing

The District may enter into cooperative purchasing contracts with one or more districts for procurement of supplies or services. A district participating in a cooperative purchasing group may purchase supplies and services through the group without complying with the provisions of 20-9-204(3), MCA if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard, for inclusion of the vendor's supplies and services on the cooperative purchasing group's master list.

Procurement of Supplies, Materials, Equipment and Services Using Federal Funds

Procurement of all supplies, materials, equipment, and services paid for from federal funds or District matching funds shall be made in accordance with all applicable federal, state, and local statutes and/or regulations, the terms and conditions of the federal grant, Board policy, and administrative procedures. Procurement of any supplies, materials, equipment or services not using federal funds shall be subject to Board Policy 7010 and state law.

The Superintendent shall maintain a procurement and contract administration system in accordance with the requirements for the administration and management of Federal grants and Federally-funded programs. The District shall maintain a contract administration system that requires contractors to perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Except as otherwise noted, procurement transactions shall conform to the provisions of the District's general purchasing policy.

The District shall take affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.

All District employees, officers, and agents who have purchasing authority shall abide by the standards of conduct covering conflicts of interest and governing the actions of its employees, officers, and agents engaged in the selection, award, and administration of contracts. The District will avoid acquisition of unnecessary or duplicative items and shall give consideration to mechanisms to obtain a more economical purchase (i.e., consolidating or breaking out procurements where permitted under state law). Where appropriate, the District shall conduct an analysis of lease versus purchase alternatives and any other appropriate options to determine the most economical approach.

To foster greater economy and efficiency, the District may engage in cooperative purchasing where appropriate for procurement or use of common or shared goods and services.

Competition

All procurement transactions paid for from federal funds or District matching funds shall be conducted in a manner that encourages full and open competition and that is in good administrative practice and sound business judgment. To promote these purposes, the District shall exclude any contractor that has developed or drafted specifications, requirements, statements of work, or invitations for bids or requests for proposals from competition for such procurements.

Further, the District does not use statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals under this policy, unless (1) an applicable federal statute expressly mandates or encourages a geographic preference; or (2) the

District is contracting for architectural and engineering services, in which case geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

To the extent that the District uses a pre-qualified list of persons, firms, or products to acquire goods and services that are subject to this policy, the pre-qualified list shall include a sufficient number of qualified sources as to ensure maximum open and free competition. The District allows vendors to apply for consideration to be placed on the list at any time and they must re-qualify every twenty-four (24) months in accordance with administrative procedures established by the Superintendent.

Solicitation Language

The District shall require that all solicitations made pursuant to this policy incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product, or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it shall conform if it is to satisfy its intended use. Detailed product specifications will be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which shall be met by offers shall be clearly stated; and identify all requirements which the offerors shall fulfill and all other factors to be used in evaluating bids or proposals. The Board shall not approve any expenditure for an unauthorized purchase or contract.

Procurement Methods

The District shall utilize the following methods of procurement:

Micro-Purchases

Purchases of supplies, materials, services, or equipment using federal funds less than \$10,000 shall be "Micro-Purchases." The District is not required to use a formal bidding process for Micro-Purchases, but it shall ensure that purchases are reasonable and equitably distributed among all qualified sources. The District shall maintain all procurement documentation to ensure the cost is less than \$10,000 for a Micro-Purchase.

Small Purchases

Purchases of supplies, materials, services, or equipment using federal funds between \$10,000 and \$80,000 shall be considered "Small Purchases." The District is not required to use a formal bidding process for Small Purchases, but it shall use a competitive process to

ensure fairness. For any Small Purchase, the District shall obtain at least two or more price quotes. The District shall maintain all procurement documentation to ensure the cost is less than \$80,000 but more than \$10,000 for a Small Purchase.

Sealed Bids

Sealed bids shall be used when the procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price. Sealed, competitive bids shall be obtained when the purchase of, and contract for supplies, materials, or equipment (including construction projects) which exceeds \$80,000 and would utilize federal funds or District matching funds.

1. Bids shall be solicited in accordance with the provisions of state law and board policy. Bids shall be solicited from an adequate number of qualified suppliers, providing sufficient response time prior to the date set for the opening of bids. The invitation to bid shall be publicly advertised.
2. The invitation for bids will include product/contract specifications and pertinent attachments and shall define the items and/or services required in order for the bidder to properly respond.
3. All bids will be opened at the time and place prescribed in the invitation for bids; bids will be opened publicly.
4. A firm fixed price contract award will be made in writing to the lowest responsive and responsible bidder.
5. The Board reserves the right to reject any or all bids for sound documented reason.

Competitive Proposals

Procurement by competitive proposal, normally conducted with more than one source submitting an offer, is generally used when conditions are not appropriate for the use of sealed bids.

If this method is used, the following requirements apply:

1. Requests for proposals shall be publicized and identify all evaluation factors and their relative importance. Any response to the publicized requests for proposals shall be considered to the maximum extent practical.
2. Proposals shall be solicited from an adequate number of sources.
3. The District shall use its written method for conducting technical evaluations of the proposals received and for selecting recipients.
4. Contracts shall be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered. Price may not be considered where procuring architectural/engineering services; compensation is subject to negotiation of a fair and reasonable fee after selection.

Noncompetitive Proposals

The District may only solicit a proposal from a sole source when one or more of the following circumstances apply:

1. The item is available only from a single source;
2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
3. The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the District; or
4. After solicitation of a number of sources, competition is determined to be inadequate.

Contract/Price Analysis

The District shall perform a cost or price analysis in connection with every procurement action in excess of \$80,000, including contract modifications. A cost analysis generally means evaluating the separate cost elements that make up the total price, while a price analysis means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the District shall come to an independent estimate prior to receiving bids or proposals.

Time and Materials Contracts

The District uses a time and materials type contract only (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. A time and materials type contract is a contract whose cost to the District is the sum of the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Suspension and Debarment

The District will award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement. All purchasing decisions shall be made in the best interests of the District and shall seek to obtain the maximum value for each dollar expended. When making a purchasing decision, the District shall consider such factors as (1) contractor integrity; (2) compliance with public policy; (3) record of past performance; and (4) financial and technical resources.

The Superintendent shall have the authority to suspend or debar a person/corporation, for cause, from consideration or award of further contracts.

The District shall not subcontract with or award subgrants to any person or company who is debarred or suspended. For contracts over \$25,000, the District shall confirm that the vendor is not debarred or suspended by verifying such status.

Maintenance of Procurement Records

The District maintains records sufficient to detail the history of all procurements. These records include, but are not limited to the following: rationale for the method of procurement, selection of contract type, contractor selection, or rejection, and the basis for the contract price (including a cost or price analysis).

Advertising in Schools/Revenue Enhancement

Revenue enhancement through a variety of District-wide and District-approved marketing activities, including but not limited to advertising, corporate sponsorship, signage in or on District facilities, etc., is a Board-approved venture. The Board may approve such opportunities subject to certain restrictions in keeping with the community standards of good taste.

Advertising will model and promote positive values for District students through proactive educational messages and not be simply traditional advertising of a product. Preferred advertising includes messages encouraging student achievement and establishment of high standards of personal conduct.

All sponsorship contracts will allow the District to terminate the contract on at least an annual basis, if it is determined that it will have an adverse impact on implementation of curriculum or the educational experience of students.

The revenue derived should:

1. Enhance student achievement;
2. Assist in maintenance of existing District athletic and activity programs; and
3. Provide scholarships for students participating in athletic, academic, and activity programs, who demonstrate financial need and merit.

Appropriate opportunities for marketing activities include but are not limited to:

1. Fixed signage.
2. Banners.
3. District-level publications.
4. Television and radio broadcasts.
5. Athletic facilities, including stadiums, high school baseball fields, and high school gymnasiums.
6. District-level projects.
7. Expanded usage of facilities beyond traditional uses (i.e., concerts, rallies, etc.).
8. The interior and exterior of a limited number of District buses, if the advertising is associated with student art selected by the District. The only advertising information allowed will note sponsorship of the student art by the participant. Maintenance for these buses will include but not exceed normal maintenance costs.
9. Individual school publications (when not in conflict with current contracts).

Advertising will not be allowed in classrooms, other than corporate-sponsored curriculum materials approved subject to Board policy.

The following restrictions will be in place when seeking revenue enhancement. Revenue

enhancement activities will not:

1. Promote hostility, disorder, or violence;
2. Attack ethnic, racial, or religious groups;
3. Discriminate, demean, harass, or ridicule any person or group of persons on the basis of gender;
4. Be libelous;
5. Inhibit the functioning of the school and/or District;
6. Promote, favor, or oppose the candidacy of any candidate for election, adoption of any bond/budget issues, or any public question submitted at any general, county, municipal, or school election;
7. Be obscene or pornographic, as defined by prevailing community standards throughout the District;
8. Promote the use of drugs, alcohol, tobacco, firearms, or certain products that create community concerns;
9. Promote any religious or political organization;
10. Use any District or school logo without prior approval.

1. It is clearly demonstrated that the purchase is of benefit to the District;
2. The purchase was made with the prior approval of an authorized administrator;
3. The item purchased was not available from District resources; and

Procurement Card Use

The Board of Trustees permits the use of procurement cards for actual and necessary expenses incurred in the performance of work-related duties for the District. A list of those individuals that will be issued a District procurement card will be maintained in the business office and reported to the Board each year at its meeting in June.

The District provides procurement cards with a credit limit not to exceed \$100,000.00 for the aggregate of all cards. Procurement cards may only be used for legitimate District business expenditures. The use of procurement cards is not intended to circumvent the District's policy on purchasing.

Users must take proper care of District credit cards and take all reasonable precautions against damage, loss, or theft. Any damage, loss, or theft must immediately be reported to the business office and to the appropriate financial institution. Failure to take proper care of credit cards or failure to report damage, loss, or theft may subject the employee to financial liability.

Purchases that are unauthorized, illegal, represent a conflict of interest, are personal in nature, or violate the intent of this policy may result in procurement card revocation and discipline of the employee.

Users must submit detailed documentation, including itemized receipts for commodities, services, travel, and/or other actual and necessary expenses which have been incurred in connection with school-related business for which the procurement card has been used.

The Superintendent shall establish regulations governing the issuance and use of procurement cards. Each cardholder shall be apprised of the procedures governing the use of the procurement card, and a copy of this policy and accompanying regulations shall be given to each cardholder.

The District Clerk shall monitor the use of each procurement card every month and report any serious problems and/or discrepancies directly to the Superintendent and the Board.

Fund Balances

The fund balance policy establishes a framework for the management of all excess funds managed by the District. It also provides guidance and direction for elected and appointed officials as well as staff in the use of excess funds at year-end.

This fund balance policy applies to all funds in the custody of the Clerk of the District. These funds are accounted for in the District's annual audited financial reports and include, but are not limited to, the following:

- General Fund
- Special Revenue Funds
- Capital Project Funds
- Enterprise Funds
- Any new funds created by the District, unless specifically exempted by the governing body; in accordance with state law or GASB pronouncements.

The District shall classify its fund balances in its various funds in one or more of the following five classifications: non-spendable, restricted, committed, assigned, and unassigned.

Definitions

A. Fund balance---means the arithmetic difference between the assets and liabilities reported in a school district fund.

B. Committed fund balance—amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest-level action to remove or change the constraint.

C. Assigned fund balance—amounts a school district intends to use for a specific purpose; intent can be expressed by the District or by an official to which the Board of Trustees delegates the authority

D. Non-spendable fund balance—amounts that are not in a spendable form (such as inventory) or are required to be maintained intact (such as the corpus of an endowment fund)

E. Restricted fund balance—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation

F. Unassigned fund balance—amounts that are available for any purpose; these amounts are reported only in the general fund.

Minimum Fund Balance

The school district will strive to maintain a minimum unassigned general fund balance of 1% of the annual budget.

Order of Resource Use

If resources from more than one fund balance classification could be spent, the school district will strive to spend resources from fund balance classifications in the following order (first to last): restricted, committed, assigned, and unassigned.

Committing Fund Balance

A majority vote of the school board is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.

Assigning Fund Balance

The school board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. The board also delegates the power to assign fund balances to the following: District Superintendent and Clerk. Assignments so made shall be reported to the school board on a monthly basis, either separately or as part of ongoing reporting by the assigning party if other than the school board.

An appropriation of an existing fund balance to eliminate a projected budgetary deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance.

The school board will conduct, at a minimum, an annual review of the sufficiency of the minimum unassigned general fund balance level.

Independent Investment Accounts

The Board may establish independent investment accounts separate and apart from those funds maintained by the county treasurer. The Board may transfer cash into an independent investment account from any budgeted or non-budgeted funds. A separate account shall be established for each fund from which transfers are made. The principal and any interest earned must be reallocated to the fund from which the deposit was originally made.

The District may either:

1. Establish and use the account as a non-spending account, returning sufficient funds to the county treasurer in time to pay all claims against the applicable fund; or
2. Establish a subsidiary checking account and make expenditures from the investment account, provided all transactions are accounted for and reported, as required by applicable accounting principles. If the District desires to establish a subsidiary checking account for purposes of paying for expenditures directly from an investment account, the District must enter into a written agreement with the county treasurer, in accordance with § 20-9-235, MCA.

Bus Routes and Schedules

The Superintendent's designee is responsible for scheduling bus transportation, including determination of routes and bus stops. Such routes are subject to approval of the county transportation committee. The purpose of bus scheduling and routing is to achieve maximum service with a minimum fleet of buses consistent with providing safe and reasonably equal service to all bus students.

In order to operate the transportation system as safely and efficiently as possible, the following factors shall be considered in establishing bus routes:

1. A school bus route shall be established with due consideration of the sum total of local conditions affecting the safety, economic soundness, and convenience of its operation, including road conditions, condition of bridges and culverts, hazardous crossings, presence of railroad tracks and arterial highways, extreme weather conditions and variations, length of route, number of families and children to be serviced, availability of turnaround points, capacity of bus, and related factors.
2. The District may extend a bus route across another transportation service area, if it is necessary in order to provide transportation to students in the District's own transportation service area. A district may not transport students from outside its transportation service area.
3. No school child attending an elementary school shall be required to ride the school bus under average road conditions more than one (1) hour without consent of the child's parent or guardian.
4. School bus drivers are encouraged to make recommendations in regard to establishing or changing routes.
5. Parents should be referred to the Superintendent for any request of change in routes, stops, or schedules.

The Board reserves the right to change, alter, add, or delete any route at any time such changes are deemed in the best interest of the District, subject to approval by the county transportation committee.

Bus Stops

Buses should stop only at designated places approved by school authorities. Exceptions should be made only in cases of emergency and inclement weather conditions.

Bus stops shall be chosen with safety in mind. Points shall be selected where motorists approaching from either direction will have a clear view of the bus for a distance of at least three hundred (300) to five hundred (500) feet.

School loading and unloading zones are to be established and marked to provide safe and orderly loading and unloading of students. The principal of each building is responsible for the conduct of students waiting in loading zones.

Delay in Schedule

The driver is to notify the administration of a delay in schedule. The administration will notify parents on routes and radio stations, if necessary.

Responsibilities - Students

Students must realize that safety is based on group conduct. Talk should be in conversational tones at all times. There should be no shouting or loud talking which may distract the bus driver. There should be no shouting at passersby. Students should instantly obey any command or suggestions from the driver and/or his/her assistants.

Responsibilities - Parents

The interest and assistance of each parent is a valued asset to the transportation program. Parents' efforts toward making each bus trip a safe and pleasant experience are requested and appreciated. The following suggestions are only three of the many ways parents can assist:

1. Ensure that students are at the bus stop in sufficient time to efficiently meet the bus.
2. Properly prepare children for weather conditions.
3. Encourage school bus safety at home. Caution children regarding safe behavior and conduct while riding the school bus.

Safety

The Superintendent will develop written rules establishing procedures for bus safety and emergency exit drills and for student conduct while riding buses.

If the bus and driver are present, the driver is responsible for the safety of his/her passengers, particularly for those who must cross a roadway prior to loading or after leaving the bus. Except in emergencies, no bus driver shall order or allow a student to board or disembark at other than his/her assigned stop unless so authorized by the Superintendent. In order to assure the safety of all, the bus driver may hold students accountable for their conduct during the course of transportation and may recommend corrective action against a student. Bus drivers are expressly prohibited from using corporal punishment.

The bus driver is responsible for the use of the warning and stop signaling systems and the consequent protection of his/her passengers. Failure to use the system constitutes negligence on the part of the driver.

Inclement Weather

The Board recognizes the unpredictability and resulting dangers associated with weather in Montana. In the interest of safety and operational efficiency, the Superintendent is empowered to make decisions as to emergency operation of buses, cancellation of bus routes, and closing of school, in accordance with his or her best judgment. The Board may develop guidelines in cooperation with the Superintendent to assist the Superintendent in making such decisions.

Transportation of Students with Disabilities

Transportation shall be provided as a related service, when a student with a disability requires special transportation in order to benefit from special education or to have access to an appropriate education placement. Transportation is defined as:

- (a) Travel to and from school and between schools;
- (b) Travel in and around school buildings or to those activities that are a regular part of the student's instructional program;
- (c) Specialized equipment (such as special or adapted buses, lifts, and ramps) if required to provide special transportation for a student with disabilities.

The Evaluation Team that develops the disabled student's Individualized Education Program will determine, on an individual basis, when a student with a disability requires this related service. Such recommendations must be specified on the student's IEP. Only those children with disabilities who qualify for transportation as a related service under the provisions of the IDEA shall be entitled to special transportation. All other children with disabilities in the District have access to the District's regular transportation system under policies and procedures applicable to all District students. Utilizing the District's regular transportation service shall be viewed as a "least restrictive environment."

Mode of Transportation

One of the District's education buses will be the preferred mode of transportation. Exceptions may be made in situations where buses are prohibited from entering certain subdivisions due to inadequate turning space, or when distance from school may seriously impact bus scheduling. In such situations, other arrangements, such as an individual transportation contract, may be arranged with parents. Such voluntary agreement will stipulate in writing the terms of reimbursement.

The bus driver shall secure a valid standard first aid certificate from an authorized instructor, within two (2) months after being employed, and maintain a valid first aid certificate throughout employment as a bus driver. The bus driver must have five (5) years driving experience.

At the beginning of each school year, a copy of the rules of conduct for students riding buses will be provided to students, and the classroom teacher and bus driver will review the rules with the students. A copy of the rules will be posted in each bus and will be available upon request at the District office and in each building principal's office.

The bus driver is responsible for enforcing the rules and will work closely with a parent and building principal to modify a student's behavior. Rules shall include consistent consequences for student misbehavior. A recommendation for permanent termination of bus privileges, accompanied by a written record of the incident(s) that led to the recommendation, shall be referred to the Superintendent for final determination. The student's parent or guardian may appeal a termination to the Board. No further appeal shall be allowed.

Food Services

The District supports the philosophy of the National School Lunch Program and will provide wholesome, appetizing, and nutritious meals for children in District schools. The Board may authorize a portion of federal funds received in lieu of taxes to be used to provide free meals for federally connected indigent students.

Because of the potential liability of the District, the food services program will not accept donations of food without approval of the Board. Should the Board approve a food donation, the Superintendent will establish inspection and handling procedures for the food and determine that provisions of all state and local laws have been met before selling the food as part of school meals.

School concessions shall comply with federal, state, and county regulations in order to provide safe food for community members and students at school events.

Commodities

The District will use food commodities made available under the Federal Food Commodity Program for school meals.

Free and Reduced-Price Food Services

The District will provide free and reduced-price meals to students, according to the terms of the National School Lunch Program and the laws, rules, and regulations of the state. The District will inform parents of the eligibility standards for free or reduced-price meals. Identity of students receiving free or reduced-price meals will be confidential, in accordance with National School Lunch Program guidelines. A parent has the right to appeal to a designated hearing official any decision with respect to his or her application for free or reduced-price food services.

The Board may establish programs whereby meals may be provided in the District in accordance with National School Lunch Program guidelines.

The amount charged for such meals shall be sufficient to cover all costs of the meals, including preparation labor and food, handling, utility, and equipment depreciation costs.

Meal Charges

The District recognizes that students may forget or lose lunch money or may have an unpaid meal account balance. The District endeavors to treat all students with dignity regarding unpaid meal charges; however, unpaid meal charges create a significant financial burden for the District. To ensure that students do not go hungry but also minimize the financial burden, the District shall charge meals and collect on meal account charges in all schools consistent with this policy.

Students who are eligible to receive free meals do not have a meal account and, therefore, are not subject to this policy. Free lunch status students may pre-pay for or purchase a la carte items with cash.

Elementary and Middle School Students

Elementary and middle school students will pay for meals at the rate established by the District in accordance with federal and state law, which includes charging reduced rates to eligible students. Meals may be pre-paid by submitting payment (cash, check, or credit card) to the school office or cafeteria or by cash at the time of service. The District will not deny an elementary or middle school student a meal and will provide a regular meal if the student does not have a meal; however, the District will charge the meal to the student's account at the established rate. An elementary or middle school student will be permitted to charge up to twenty dollars (\$20.00) if his or her meal account has a balance of zero. Once a student has reached a negative balance of twenty dollars (\$20.00), the student will not be permitted to charge a la carte items, such as milk, but the school will offer the student with an alternate.

High School Students

High school students will pay for meals at the rate established by the District in accordance with federal and state law, which includes charging reduced rates to eligible students. Meals may be pre-paid by submitting payment (cash, check, or credit card) to the school office or cafeteria or by cash at the time of service. A high school student will be permitted to charge a maximum of five (5) meals if his or her meal account has a balance of zero. Once the student's account has been charged five (5) meals, the student or parents/guardians must submit payment for the meal account balance. If a student has reached the maximum meal account balance and no payment has been received, the student must have cash or a meal from home. The school will not provide an alternate meal for high school students who have reached the maximum meal account balance without payment.

Adults

Adults must pay the full cost of all meals purchased. Adults may pre-pay for meals, submit cash at the time of service, or charge up to five (5) meals.

Payment of Meal Account

Each school shall maintain records regarding student meal balances. The District issues notices through an automated system every two weeks when a student's meal account has a balance of five dollars (\$5) or more. The District issues notices every two weeks regarding meal account balances for elementary students and monthly regarding meal account balances for middle school students. Parents/guardians may also check a student meal account balance online through the District's student information system portal accessible through its website (<http://www.thompsonfalls.net>).

Parents/guardians must submit payment for meal accounts in person to the school office or cafeteria (by cash, check, or credit card), by mail to the District (206 Haley Ave. West) (by cash or check), or by phone (406-827-7190) (credit card only). Payment must be submitted thirty (30) days from the date of notice of balance. If the District has not received payment by the end of the school year, the payment is considered overdue and is a delinquent debt. The District will use reasonable efforts and as permitted by state and federal law to collect meal account balances which are delinquent debts, including payment plans as determined appropriate.

Procurement of School Food

The District will abide by the following requirements for any procurement related to its food services:

Purchases Greater than \$80,000

Except as permitted below, whenever the cost of food service supplies, products, or equipment exceed \$80,000, the District will call for formal bids by issuing public notice as required by law. Specifications will be prepared and made available to all vendors interested in submitting a bid. The contract shall be awarded to the lowest responsible bidder, except that the trustees may reject any or all bids. The Board, in making a determination as to which vendor is the lowest responsible bidder, will take into consideration not only the amount of each bid, but will also consider the skill, ability, and integrity of a vendor to do faithful, conscientious work and to promptly fulfill the contract according to its letter and spirit.

The District may enter into cooperative purchasing contracts with one or more districts for procurement of food supplies or services. Such services and supplies may be purchased without complying with the above stated bidding requirements if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides and opportunity at least twice yearly for any vendor to compete, based on lowest responsible bidder standard, for inclusion of the vendor's supplies and services on the cooperative purchasing group's master list.

Purchases Less than \$80,000 but Greater than \$10,000

Purchases of food service supplies, products, or equipment between \$10,000 and \$80,000 shall be considered "Small Purchases." The District is not required to use a formal bidding process for Small Purchases, but it shall use a competitive process to ensure fairness. For any Small Purchase, the District shall obtain at least two or more price quotes. The District shall maintain all procurement documentation to ensure the cost is less than \$80,000 but more than \$10,000 for a Small Purchase.

Purchases Less than \$10,000

Purchases of food service supplies, products, or equipment less than \$10,000 shall be "Micro-Purchases." The District is not required to use a formal bidding process for Micro-Purchases, but it shall ensure that purchases are reasonable and equitably distributed among all qualified sources. The District shall maintain all procurement documentation to ensure the cost is less than \$10,000 for a Micro-Purchase.

Bid Specifications

The District will not award a contract to a potential vendor who has written any of the bid specifications, the solicitation documents, or any of the contract language.

The District shall take affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible.

Identical bid specifications and/or request for proposals will be provided to all potential vendors.

Buy American

The District shall procure domestic commodities and products ("Buy American") for the use of its Child Nutrition Program to the maximum extent practicable. The District is permitted to buy foreign goods only when:

- Food preferences can only be met with foreign goods;
- A sufficient quantity and/or quality is not available through domestic commodities or products; or
- The cost of domestic commodities and products is significantly higher.

Debarment and Suspension

For any food service purchase in excess of \$25,000, the District shall obtain verification or certification from a vendor that neither it nor any of its principals (e.g., key employees) have been proposed for debarment, debarred, or suspended by a federal agency.

Standard of Conduct

District employees engaged in the award and/or administration of food service contracts supported by federal funds are subject to the following code of conduct:

- No employee may participate in the selection, award, or administration of a food service contract supported by federal funds if he or she has a conflict of interest or can reasonably be perceived as having a conflict of interest.
- No employee may solicit any gratuities, favors, or anything else of monetary value from a potential vendor.
No employee may participate in the selection, award, or administration of a food service contract supported by federal funds when the employee or member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these individuals has a financial interest in a vendor.
- Employees are expected to demonstrate integrity and honesty.

Employees who fail to abide by this policy will be subject to disciplinary action up to and including discharge.

Bid Protest Procedures

Any vendor who desires to protest the award of a bid pursuant to this policy shall, within fifteen (15) days after award of the bid, give notice of their protest. The notice shall state in detail the basis of the claimant's bid protest and the resolution requested. The bid protest shall be provided to the Business Manager or designee. The Business Manager or designee shall investigate the claim and issue a written decision within fifteen (15) days after receipt. If the claimant is not satisfied with the decision of the Business Manager or designee, the claimant may appeal the decision to the District's Board of Trustees. The notice of appeal shall be filed with the Board of Trustees within fifteen (15) days after issuance of the decision from which the appeal is taken. The appeal shall state the basis of the appeal and provide to the Board the original bid protest, together with a copy of the decision being appealed from. The specific grounds for the appeal shall be stated in the appeal and shall not include additional claims or information not provided with the original bid protest.

The Board of Trustees at the next regular board meeting following the receipt of the appeal shall either hear the appeal or set a time to consider the appeal. The Board may in its discretion render a decision based upon the information and records before the Board of Trustees or, in the Board's discretion, may request the claimant and a representative of the District to each present information pertaining to the bid protest.

The Board shall issue a written decision within thirty (30) days of the meeting in which it considered the appeal.

Tobacco and Marijuana Free Policy

The District maintains tobacco-free and marijuana-free buildings and grounds. Tobacco includes but is not limited to cigarettes, cigars, snuff, smoking tobacco, smokeless tobacco, nicotine and any other tobacco innovation. Marijuana products are products that contain marijuana for use by a consumer and include but are not limited to edible products, ointments, tinctures, marijuana derivatives, marijuana concentrates, and marijuana intended for use by smoking or vaping.

Use of tobacco and marijuana products in a public school building or on public school property is prohibited, unless used in a classroom or on other school property as part of a lecture, demonstration, or educational forum sanctioned by a school administrator or faculty member, concerning the risks associated with using tobacco products or in connection with Native American cultural activities.

For the purpose of this policy, “public school building or public school property” means:

- Public land, fixtures, buildings, or other property owned or occupied by an institution for the teaching of minor children, that is established and maintained under the laws of the state of Montana at public expense; and
- Includes playgrounds, school steps, parking lots, administration buildings, athletic facilities, gymnasiums, locker rooms, and school vehicles.

Violation of the policy by students and staff will be subject to actions outlined in District discipline policies.

District Safety

The Board recognizes that safety and health standards should be incorporated into all aspects of the operation of the District. Rules for safety and prevention of accidents will be posted in compliance with Montana Safety Culture Act and the Montana Occupational Safety and Health Act. Injuries and accidents will be reported to the District office.

The building principal will develop a plan of fire, civil defense, tornado, and earthquake warning, protection, and evacuation. This plan and procedures will be discussed and distributed to each teacher at the beginning of each school year. There will be at least eight (8) disaster drills a year. All teachers will discuss disaster drill procedures with their class at the beginning of each year and will have them posted in a conspicuous place next to the exit door. A record will be kept of all fire drills. The drills will be held at different hours of the day or evening to avoid distinction between drills and actual disasters. The Superintendent will develop safety and health standards that comply with the Montana Safety Culture Act.

Safety or Emergency Plans

The Board shall review the school safety or emergency operations plan at least annually and update the plan as determined necessary by the trustees based on changing circumstances pertaining to school safety. Once the Board has made the annual certification to OPI, it may transfer funds pursuant to Section 20-1-401, MCA to make improvements to school safety and security.

The school safety plan or emergency operations plan must include threat assessment practices regarding the following:

1. The adoption of a threat assessment protocol, outlining policies and procedures for implementation when there is notification of a student threat of harm to others or property; and
2. An identified threat assessment team, composed of key staff, that meets at least monthly and may include behavioral threat assessment addressing students in need of academic and behavioral supports or interventions.

School Closure

The Superintendent is authorized to close the schools in the event of hazardous weather or other emergencies that threaten the safety of students, staff members, or school property. Specific procedures for school closures may be found in the District's Safety Plan or Emergency Operations Plan. The Board shall periodically review the District's Safety Plan or Emergency Operations Plan and shall update the plan as necessary based upon changing circumstances regarding school safety.

Hazardous and Infectious Materials

The Superintendent shall take all reasonable measures to protect the safety of District personnel, students, and visitors on District premises from risks associated with hazardous materials, including pesticides, and infectious materials. Specific procedures for handling hazardous or infectious materials may be found in the District's Safety Plan.

Safety Measures

The Superintendent is authorized to adopt reasonable safety measures to protect the safety of District personnel, students, and visitors on District premises and during school-related activities. Reasonable safety measures include adoption of cleaning/sanitization plans, use of physical safeguards/barriers, and required use of personal protective equipment (*e.g.*, face masks). Exceptions to any requirements adopted by the Superintendent may be granted as required by law and on a case-by-case basis.

- For the digital storage, management, and retrieval of student records (including through cloud-based services); or
- Authorizes a third-party digital software provider to access, store, and use student records in accordance with the provisions any such resulting contract.
